

## FREDDIE MAGUIRE

Local Boxer Enters the Ring Again

The Gladstone club meeting for Thursday evening of this week promises to be the most interesting ever held by that club and for two reasons: the first being that the two principal bouts are between boys in the 110 pound class, and the second because one of the contestants in the main bout is Freddie Maguire of this city, one of the cleverest little men of his weight in the country. Freddie has not been seen in the ring much, for the reason that he could not get any one of his weight to meet him. Within a year or so a number of new boutants have sprung up so that he will find an occasional match. He will box 12 rounds with Young McCullough of Providence, R. I., who has a fine reputation. The semi-final will be six rounds at 110 pounds between Young Johnson and Young Murray of this city at 110 pounds. There will be preliminary in the 105 class and another in the 140 pound class. The little fellows always furnish the fastest bouts and hence there should be lots doing Thursday evening. The meeting as usual will be for members only.

### BASEBALL NOTES.

In beating Dallas, 3 to 2, one day last week, all the runs scored by Washington were made on home runs.

Jim McGuire is improving the practice games for the Naps and is encouraging the young pitchers at the same time.

Connie Mack and Cantillon have gone on record as favoring the Clevelanders for this year's American league championship.

Helmuth, Philadelphia's latest outfit, didn't need much spring training, having come east from California after a season of 25 games.

This year the Boston Americans will make 25 railroad jumps and will travel 11,721 miles, while the Doves will make 25 jumps, traveling 11,256 miles.

Not so much has been heard of McGraw's \$1,000 beauty, Marquard, since he was touched up for three home runs and four triples down at Martin.

Old "Csy" Young made a good start with the Naps, giving New Orleans only one hit in five innings, and holding his position in odd-time form.

The Doves was an even thing throughout.

### "TOM" SHARKEY

SAYS HE WILL CHALLENGE JACK JOHNSON

BOSTON, March 31.—Tom Sharkey of New York announced publicly yesterday at the Armory A. A. that unless he is called to challenge Jack Johnson within three months, he will issue a challenge himself.

I have not had a glove on for two years," stated Sharkey, "but I am not a old-timer and I do not think much of the heavyweights of today. Give me two months and I could get in condition to give any of them a go for their money. If the Doves don't come out and challenge Jack Johnson within three months I will go after Johnson myself."

I am only 25 years old and have still got something in me and I mean business."

### ASSAULTED REFEREE

BOSTON, March 31.—Davey Decker of Cambridge fought Buckley McFarland of Chicago 12 rounds to a draw last night at the Armory A. A. and on announcement of the decision McFarland assaulted Referee Jack Sheehan and knocked him down. A tumult followed in which the seconds and ringers of both bouts exchanged blows. Several outsiders jumped into the ring and broke up the melee and soon after McFarland apologized for hitting the referee, but declared he thought the decision unfair.

The bout was an even thing throughout.

### THE WEST ENDS

Took Two Points From the Avons

The West Ends won two of the three points in their game with the Avons in the minor league series last night. The Avons started off well in the first string but went to pieces in the second and third. Peter of the winning team was high man.

In the Bowditch league Locke's Pets put all over Henderson's Lumberjacks, the Pets capturing two of the three points.

In the Corporation league The Boat trimmied the Hamilton and the Lawmen aggregation trounced the Massachusetts team.

The scores:

MINOR LEAGUE  
West Ends—H. Campbell, 262; Turners, 233; Dyer, 251; H. Gordon, 233; Turner, 253; total, 1381.

Avons—Dempsey, 262; Gill, 273; Bratt, 241; E. Buckley, 270; Langley, 253; total, 1329.

BOWLING LEAGUE  
Locke's Pets—Loy, 269; Hamel, 255; Richardson, 253; Cole, 261; Sturtevant, 255; total, 1322.

Lumberjacks—H. Deemers, 263; Aiken, 243; P. Deemers, 245; Perrin, 255; Henderson, 251; total, 1328.

DAVIS PETS WON

Davis Pets—Davis, 249; Wilson, 256; Nelson, 203; Kershaw, 230; 200 vs. 233; total, 1176.

Williams Pet—Williams, 229; O'Neil, 229; Hall, 231; Flannigan, 197; Luton, 218; total, 1055.

CORPORATION LEAGUE

Boat—Alford, 236; Kirby, 222; Gosselin, 232; Ladd, 256; Worthen, 268; total, 1323.

Hamilton—Lam, 243; Hevey, 267; French, 232; Johnson, 258; Gould, 250; total, 1229.

Lawnmen—Stearns, 274; Blane, 262; Richardson, 252; Butterfield, 252; Gosselin, 254; total, 1221.

Massachusetts—Deemers, 273; O'Neil, 243; McFadden, 253; Walsh, 229; Morris, 267; total, 1229.

SURPRISE PARTY

There was a surprise party held on Monday night at 100 South Walker street, the occasion being the 11th anniversary of Mrs. Gordon's wedding and also her birthday. There were 200 guests and lots of Mrs. Gordon's friends present from Springfield, Boston, New Haven, Stamford, N. H., and Lowell.

Mrs. Henry says she is a beamed Roman girl in her old age. She was the recipient of many beautiful presents, among them a large bouquet of roses from the G. G. ladies, of which she is a member.

Mrs. Henry's son, a son entitled to be "The Royal Yacht" and Mrs. Gordon's son, "The Royal Yacht," were the ones who planned and arranged the party, which was held after midnight.

JOSEPH BIARSKY

FOUND GUILTY OF ASSAULT AND BATTERY

Joseph Biarsky was found guilty of assault and battery this morning in the 11th district court, and was sentenced to 10 days in jail and fined \$100. The court also ordered him to pay \$100 in damages to the victim.

The case of George W. Martin, charged with the shooting of a man, for whom was ordered 10 days in jail and fined \$100.

CARGO OF SNUFF

PROVIDENCE, R. I., March 31.—(UPI)—A cargo of 100,000 pounds of snuff was seized at the port of Providence yesterday by the U. S. customs service.

The snuff was sent from the United States to the port of Providence by the American Snuff Company.

## ROGER BRESNAHAN IN GINGERY PLAY

LITTLE ROCK, Ark., Mar. 31.—Roger Bresnahan, the American on Roger Bresnahan, his predecessor was a failure. Though the two teams have not yet met in the spring exhibition games, over some time on the merits of the club may be given. It is a club with great physical possibilities. It has the best of them, what they will be able to do, speed, hitting power and field defense, and what might be termed the morale of the club is yet untried.

## TARIFF REVOLT CHECK FOR \$1000 IRISH LAND BILL

Led by a West Virginia Mass. Mills Present Gift Reintroduced by Senator to Overseer

to Overseer

WASHINGTON, March 31.—Senator Elkins of West Virginia, a member of the Senate, introduced the Irish bill in the house of commons yesterday at the opening of the session.

Among those present at yesterday's meeting was J. H. Stuckey, overseer of weaving in the Preston mill who directs the operations of 1400 looms and who consults with the month 50 years of national service with the Massachusetts corporation.

During the meeting, which dealt with the business of the mill, Agent W. E. Southward read the bill and addressing Mr. Stuckey read the following letter:

BOSTON, Mass., May 29, 1899.—The directors of the Massachusetts cotton mills desire to compliment Mr. J. H. Stuckey upon the completion this month of 50 years service for the company, and to assure him of their high appreciation of his integrity and fidelity to its interest, as well as of his honorable service as a Chinese soldier for 14 years during the Civil War, which, they learn, constitutes the only exception to his labor at the Massachusetts cotton mills since 1850.

Among those present at yesterday's meeting was J. H. Stuckey, overseer of weaving in the Preston mill who directs the operations of 1400 looms and who consults with the month 50 years of national service with the Massachusetts corporation.

During the meeting, which dealt with the business of the mill, Agent W. E. Southward read the bill and addressing Mr. Stuckey read the following letter:

BOSTON, Mass., May 29, 1899.—The directors of the Massachusetts cotton mills desire to compliment Mr. J. H. Stuckey upon the completion this month of 50 years service for the company, and to assure him of their high appreciation of his integrity and fidelity to its interest, as well as of his honorable service as a Chinese soldier for 14 years during the Civil War, which, they learn, constitutes the only exception to his labor at the Massachusetts cotton mills since 1850.

In total of which they beg Mr. Stuckey's acceptance of the accompanying gift and wish him prolonged health and happiness which this will do.

Arthur T. Lyman, President.

For the Directors.—The accompanying gift was a check for \$1000.

Mr. Stuckey was deeply affected by this friendly expression of marks of appreciation, and expressed his thanks to his colleagues. The other members found in the corporation were a good many more years of length and experience.

Arrangements had been made to take him to police headquarters yesterday when he had not paid.

## CAR SPRINKLERS LITTLE PORTIA

Should Be Put in Opera- Accuses Woman in Police Court

The street car sprinklers should begin operations in Lowell the day after tomorrow, April 1, but the mayor has not yet approved the contract and unless some action is taken at once we will have to keep on eating and breathing the whirling dust. The superintendent of schools has not the authority to start out, the chief magistrate says the word in the mayor is in the case because the company governing the sprinklers communicated with Mr. Peabody instead of with the mayor.

### NEW SCHEME

#### FOR EXAMINATION OF POLICY HOLDERS EVERY FIVE YEARS

NEW YORK, March 31.—For medical examination of policy holders every five years as a means of prolonging human life was suggested to the Association of Life Insurance Presidents yesterday by Dr. Barnside Foster, editor of St. Paul (Minn.) Medical Journal, and also a life insurance medical examiner. Such examinations, Dr. Foster declared, would reveal the incipient stages of unsuspected diseases that could be cured or whose progress could be materially retarded, and it would thus be possible to add five, ten or more years to the average longevity of policy holders. Of course such examinations could not be made compulsory, but Dr. Foster thought that the proposed innovation would be welcomed by policy holders once they realized the value and significance of it.

### ESCAPES ARREST

#### TOWN CLERK HAD FIVE MINUTES TO SPARE

NEW YORK, Mar. 31.—With only five minutes to spare, Wm. L. Johnson, the former town clerk of Bloomfield, N. J., yesterday made up a shortage of \$1000 in his accounts, for which he was about to be arrested. When the shortage was discovered about a week ago, he was given until 1 o'clock yesterday afternoon "to make good."

At 12:55 Johnson walked into Town Treasurer Osborne's office and tossed a great roll of notes on the desk, with the remark, "Here it is, Harry." He would not say where he got it, and when it was counted and found right he walked away without further words.

Johnson resigned his \$2000 job at the end of the year, saying he was going such to his health. The town would not accept his resignation until March 1. When Commissioner Walker learned of the number of the bills in Bloomfield, and found that of the 1300 only 30 appeared by Johnson's books as being licensed. Also it appeared, the franchise tax for 1907 and 1908 had not been paid.

When the railroad company was asked about this it showed receipts proving it had turned over to Johnson \$1420. He admitted this and paid to the town \$200 from his accounts, reducing his indebtedness to \$1669. "I'll fix the rest up," he said.

Arrangements had been made to take him to police headquarters yesterday when he had not paid.

Money deposited this week at the Lowell Five Cent Savings Bank begins to draw interest April 3.

NEW YORK, March 31.—Eight-year-old Minnie Greenberg, of No. 59 Clinton street and her sister, Sadie, "who's going on six," appeared in Essex market court yesterday promptly at 2 p. m. to press against their neighbor, Mrs. Schlesinger, the charge of being a "terribly awful woman." Minnie got a summons for Mrs. Schlesinger on Sunday, after telling Magistrate Walsh all the details. Mrs. Schlesinger lives in the flat just over the Greenbergs.

When the case came up yesterday the magistrate asked the policeman on the bridge to hold up the two complainants in their arms so he might get a better look at them. At this juncture Mrs. Schlesinger appeared, carrying a baby and leading two other children after her.

"Are you all ready to go on with the case?" asked Magistrate Walsh solemnly.

"We is," piped up Minnie. "We can prove that this awful terrible woman has been slapping our faces in the hall and stopping milk on us and we don't do nothing agin her. Now, I tell you as you wanted me to, Miss Judge, I got my Aunt Becky Bronberg to serve the summons."

Through an interpreter Mrs. Schlesinger said she wanted a lawyer to defend her.

"We don't," interrupted Little Sadie. "But, Miss Judge, we don't want to have Mrs. Schlesinger baby go to prison. We hasn't anything agin de little kid."

Although the two Little Sadies pleaded that the case might go on saying that they were prepared to prove all their allegations the magistrate adjourned the hearing until today at 2 p. m.

"When my lawyer goes before the judge you will hear a different story," said Mrs. Schlesinger, as she disengaged herself from the crowd.

### O'LEARY HOME

#### HAS RECEIVED CHECK FOR \$10 FROM MUNICIPAL FUND

The O'Leary Home for Children in Kirk street is in receipt of a check for \$10 as its share of the balance of Mayor Brown's municipal register.

The check, which was received by Miss O'Leary, was immediately turned over to Edward W. Trull, assistant clerk of the police court, who is treasurer of the home. The property of accepting the check, owing to the investigation called for by Alderman Turner's resolution, will be discussed at a special meeting of the directors of the home, which will be held at an early date.

### TO STUDY GRADE CROSSING

PROVIDENCE, R. I., Mar. 31.—In order to find out what is needed to make a special study of grade crossing problems, concrete work and bridge construction in southern New England, Edwin P. Dawley, engineer of construction of the New York, New Haven & Hartford railroad, has been appointed consulting engineer. The announcement, which was made late this afternoon, created somewhat of a surprise in railroad circles. Dawley is regarded as one of the most prominent civil engineers engaged in railroad work. He will probably continue to be located in Providence.

### SERVIAN KING WHO MAY ABDICATE

WASHINGTON, Mar. 31.—King Peter of Serbia, who has been in the United States for the past month, has been here to see his son, Prince Nicholas, who is now 18 years old. The prince is the heir to the throne of Serbia and is the only son of King Peter and Queen Olga. The prince is a member of the Serbian royal family and is the only son of King Peter and Queen Olga. The prince is a member of the Serbian royal family and is the only son of King Peter and Queen Olga. The prince is a member of the Serbian royal family and is the only son of King Peter and Queen Olga. The prince is a member of the Serbian royal family and is the only son of

# WOMAN SUFFRAGE

## Able Plea Made by Miss Ethel M. Arnold of England

Miss Ethel M. Arnold, the talented English lecturer, gave a delightful and interesting lecture on "The Progress of Women in Europe," last night, in the residence of Maj. and Mrs. C. A. Stott, the affair being under the auspices of the Lowell Society for the Enfranchisement of Women. The brilliant lecturer threw much light on the subject and the audience found convincing arguments for women suffrage offered.

Mrs. Charles D. Palmer, president of the local society, presided, and after referring to the aggressive work of the organization, she introduced Miss Arnold as the speaker of the evening.

Miss Arnold, who has a pleasing appearance, an excellent voice and clear enunciation, interested her audience from the start. She spoke in part as follows:

"Before leaving England I was warned that I must be very careful what I said in regard to the suffrage question in this country—that there was very little interest in it, and that the issue was in fact a dead issue. My only answer was, that there would be. Time has shown. During the few months that I have been in America I have spoken on the suffrage cause in many cities, and in each city I have found a very keen interest in the subject. I have spoken always to large audiences, and so perhaps the majority of my audiences have not been thoroughly with me. At all events, I have found a readiness to listen to the arguments, such as I urge, if I should find in some cities on the other side. In

### Doctors Watching

### Itching Scalps Heal

From Chicago Inter-Ocean

Eczema on the head and scalp, and dandruff, will soon cease to afflict mankind, according to Dr. Augustus M. Churchill, who is in Chicago attending the convention.

"Any person can apply my treatment anywhere just as well as I do in the Franco-American Institute for Scalp Diseases," said he Tuesday.

"Get from your druggist 2 ounces of quinine, dissolve it in 12 pint hot water, let cool and rub well into the scalp with the finger tips. That is all there is to it. Two or three applications usually accomplish the desired results."

"Of 58 cases treated 56 were completely cured and treatment was begun for the other 2."

"The formation of dandruff" causes an itching scalp. Scratching with the fingers spreads infection; therefore, domino can be used with good results as a preventative by anyone whose scalp is itching or forming dandruff. It is the best thing I know of to promote the growth of hair."

## HOW THEY CURE CATARRH UP IN MICHIGAN

Thousands of People in Michigan have been Cured of Catarrh, Bronchitis, Asthma, Croup, and Give Credit where Credit is Due.

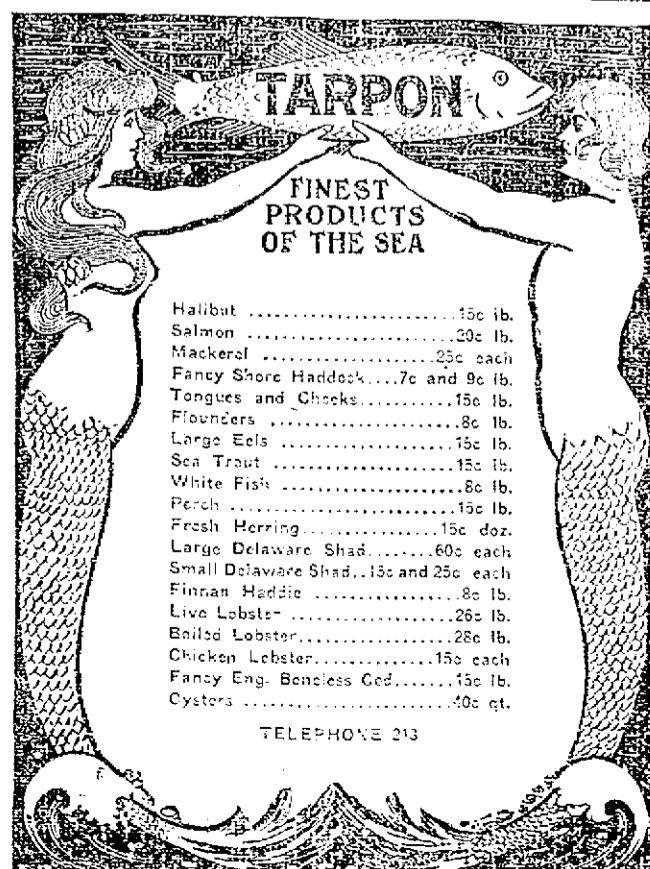

"Catarrh gave me untold misery for a long time. Nothing gave me relief. Hyomei soon cured me!"—Peter Stuck, Ypsilanti, Mich., Nov. 17, 1908.

"I had a bad cough for over a year. No relief from three different doctors; thought I was going to die. I used Hyomei and got better right away. It saved my life!"—Wilbur Baum, Holt P. O., Mich., Dec. 19, 1908.

"I had catarrh for years in throat and bronchial tubes. I had smothering sensations and could hardly get my breath. Hyomei cured me, and I publicly recommend it!"—Frank Landro, Yale, Mich., Dec. 2, 1908.

"For several years I suffered all the tortures from asthma that a person could and live to tell the story. I doctored constantly, but with no benefit, till I tried Hyomei. It gave me remarkable relief, and there is nothing too strong for me to say in favor of Hyomei!"—Mrs. E. J. Hedges, Flint, Mich., Dec. 5, 1908.

"Doctoring and remedies never help."

much to the old conservative suffragists, as to the methods of the more militant suffragists.

"At the outset, though the tactics of the militant suffragists alienated many people, yet they did bring the subject of the semi-academic atmosphere under which it reposed for many years."

The speaker made brief reference to the anti-suffrage league that recently came into existence under the auspices of Mrs. Humphrey Ward, a sister of Miss Arnold. She also spoke of the serious tactical mistakes of the militant suffragist and said that they were more than willing to pay for any mistakes they have made. She stated that though she did not speak from experience, Hollowell jail is not a pleasant place to be in.

In conclusion Miss Arnold said: "I hope we do not expect from it any immediate effect on the economic situation in respect to women's wages, though I believe its ultimate effect will be incalculable. I do not anticipate that any sort of legislative millennium for women. I do not anticipate any marked change in the character of the legislation. Feminine opinion will be found to be greatly divided. I do not believe that women will plunge us into a revolution of government. If universal suffrage will lead people to realize this, and to put suffrage on the basis of brains and qualification, it will accomplish a good end."

"What, then, do we anticariate?" Well, broadly speaking, it is a general raising of the whole status of women, both mental and moral; and a fuller co-operation between the two halves of the community, for the whole community's benefit. Sex antagonism, we believe, will largely disappear, when the sexes are on a basis of economic and political equality.

"Then there are questions constantly coming up in politics that affect women more vitally than men. If protection is ever forced upon the English people without the English houses wives having a voice in the matter, it will be a political crime."

"Mr. Roosevelt has said that the increased business the coming year has been the most valuable asset of a place the contract for a new mid-

west material. The working capacity will be increased more than one-third by this addition. The directors at a meeting decided to extend the present lease to the south over the next 10 years, originally to be paid by the E. M. Martin Co., and now the property of the Warren Manufacturing Co.

ANSONIA SILK CO. STARIS ALLEGTON, Pa., March 31.—A new silk firm, which will make a specialty of manufacturing woven silk, has started operations, and when full running order, six weeks from now, will employ 20 hands. The new firm is the Ansonia Silk company, of which Charles Superstein, formerly with the Stayvesant Silk Co., of South Elizabethtown, is manager. It occupies the fourth floor of the Christ Paper & Co. building of Hall and Market streets. A number of broad silk looms will shortly be in operation.

HOSIERY MILL FOR LYNCHBURG ROANOKE, Va., March 31.—The Lynchburg hosiery mill has been incorporated with a capital stock of \$50,000 to continue an established plant. It is now operating 165 knitting machines with accompanying equipment, and will add 200 machines. J. G. Burton is president and manager, and C. G. Burton, secretary and treasurer.

PARAGON PLANT SOLD MOHAWK, N. Y., March 31.—The

THREE DOLLARS PER YEAR. TWENTY-FIVE CENTS PER MONTH

The sworn daily average circulation of The Lowell Sun for the year 1908 was

15,956

Sworn to by John H. Harrington, proprietor, Martin H. Reidy, business manager, and Alfred Pilote, pressman, of The Sun, before me, January 1, 1909. J. JOSEPH HENNESSY, Notary Public

This is by far the largest average circulation of any newspaper in Lowell.

## SCIENCE OF EATING.

There is a good deal of misapprehension about eating on days of rest. The hard working man who would eat as much on a day on which he is idle as when he works would find himself, to say the least, greatly distressed. The road taken into the system may be regarded as so much fuel required to keep the engine running. When the engine has to work hard more fuel will be required than when it is practically idle.

In Chicago a few years ago a number of the city horses kept in the stable for a week got the usual allowance of grain given them when working. They died as a result.

There are boarding houses in Lowell and elsewhere that prepare but two meals on Sundays, have breakfast and late dinner, and unless the boarders are out for exercise they are satisfied with two good meals on days of rest.

Then there are in Lowell a great many people who "meal out," using a meal ticket by which they pay for each meal. These people, as a rule, eat but two meals at their regular boarding places on Sundays; but they are suspected of swelling the number of hotel guests, each of whom is satisfied with a sandwich and a drink.

In eating the appetite is usually a safe guide but not so in drinking intoxicants. The man who tries to eat as much when not working as when engaged at hard work will soon suffer from disordered digestive functions.

## UTILIZING THE FORCES OF NATURE.

Some mechanical genius has proposed that we dig down deep enough into the interior of the earth to reach the molten matter and bring up the heat to run our machinery instead of burning coal. That is a splendid idea, but it would probably be more practical in the vicinity of a volcano than in the rather frigid climate of New England. To sink a couple of miles below the surface would be a difficult task, and if the molten matter was not then encountered all the work would be worthless. If it were reached and a shaft secured, then there would be a possibility of a cooling process that would defeat the object of the scheme.

This is a mode of utilizing the forces of Nature that has not been successfully tested; but so great has been the success of engineers in utilizing water power of rivers in sodding the tides and even using the wind and the sunlight for motive power that it is difficult to say what they will accomplish in other directions now unthought of.

Knowledge is infinite and the ingenuity of man is daily unlocking new secrets of Nature with the result that things more strange than wireless telegraphy and navigation of the air may be brought to light to astonish the present generation and go down to the next as one of the modern discoveries at which the people have ceased to wonder.

Perpetual motion seems to be the only thing that stops the inventive genius of man. That is apparently reserved as an attribute of the power of the Almighty.

## CONGRESSMAN GILLET'S BREAK.

Congressman Gillet, speaking in reference to the tariff tax upon tea the other day, made the statement that it would be a good thing to put a tax upon tea and coffee so that the people might feel the burden.

The congressman should realize by this time that the people have had burdens as heavy as they could bear during the past two years and still have enough without adding others. The republican panic brought them burdens which even, we believe, in the opinion of Congressman Gillet should be sufficient to impress them with the outrageously corrupt and extravagant government conducted by the republican party at Washington.

The burdens brought by the republican panic have not yet been quite overcome. Business has not yet been revived and the effects of embankment and idleness in the factories are still felt.

Where, it might be asked, has Congressman Gillet been living that he thinks the people have not had burdens sufficient to impress them with the state of affairs at Washington and the need of statesmen to bring about a revival of prosperity?

The republican party secured re-election on the premise of revising the tariff. That meant a reduction of the tariff, not an increase, but the republican party, now that election is over, has already started out to increase rather than reduce the tariff.

Congressman Gillet is one of the instigators of oppression foolishly sent to Washington by the people out at Springfield in this state. The speech that he made advocating a tax upon tea and coffee proves that he is foolish, that he doesn't realize what the people have suffered through republican corruption and republican alliance with the trusts of this country. He is but a tool for the trust magnates who are working through him and others to get their oppressive schedules re-enacted in the Payne bill.

The republicans have the votes and they will use them to pile up fresh burdens for the people and to re-elect the trusts that were so glad to their losses by the policy of the Roosevelt administration.

The people of Springfield ought to be ashamed of Gillet; the which people ought to be ashamed of him. They should remember this speech and when Gillet comes up for re-election, they should impress him with their appreciation of the present burdens that he and others of his ilk have placed upon their shoulders, by referring him to private life where he belongs, so as to repel the mistake of ever sending him to congress. His sympathies are opposed to the people and with the trusts. His speech in favor of a tax upon coffee and tea just to sit there to do that to us while he and others were elected to do is hypocritical, spiteful and evasive of duty.

What is being done to stop the burdens being piled upon the people? Is it not the plain tool of the standpatters who want to raise the tariff again? I stand by law.

This assumption of various virtues will not blind the people as to his unscrupulous seeking of duty and his effort to pose as a friend of the people while he is helping to accomplish their betrayal.

## SEEN AND HEARD

Nobody can ready hims'elf but

himself.

We have off on the first robin and

Mary is exonerated.

A big York-darren had come all the

way to London to see the British Ma-

chine. Unfortunately, it was a day

when the machine was closed. The in-

Sergeant York-darren refused to take

the time to answer from the policeman

at the gate. "What's this public prop-

erty to be closed?"

"Oh, excuse me," said the Yorks-

man in a hushed voice. "In that case I

would not mind," he said.

"You are ignorant the policeman

said, "to avoid, struck by a bright

idea, one of the mechanics died on

Tuesday, and I got longitude us one

to buy him in."

# FUND OF \$10,000

## Is Wanted to Conduct the Great Auto Carnival

The auto carnival awaits a great carnival would be sufficient and that a fund of \$10,000, it being felt that the raising of that amount of money within a fortnight is necessary to assure success of the project. Such was the consensus of opinion of the meeting of the Lowell Automobile club held last night when the club met for the purpose of organizing for the year.

The meeting was held in the board of trade rooms and although there was a good attendance of members and unusual enthusiasm displayed during the night, it was reported that the contributions were not coming in as fast as was anticipated and that unless more activity was shown by contributors in the near future there would be little chance of holding the proposed carnival.

It was shortly after eight o'clock when President John O. Heinz called to order with John A. McKenna as secretary.

The first business of the meeting was the election of officers for the ensuing year which resulted as follows: President, John O. Heinz; vice-president, Fred W. Coburn; secretary and treasurer, John A. McKenna.

President Heinz said that he had outlined a series of events which included automobile races on two days, balloon ascensions, aeroplane flights, a Marathon race and several other novel and interesting athletic events, which would occupy the entire Labor Day week. These events were offered only as suggestions. He said that he had made out a list of committees which should the proposition meet, the approval of the people. His reason for not publishing the list at the present time was for fear that the carnival would not be carried through.

He felt, however, that the committee on finances should be made known. This committee is made up of the following: Fred W. Coburn, Fred Herne, Paul E. Chalifoux, W. L. Robertson, J. M. Andrews, R. C. Hemmings, Austin E. Cladwell, George H. Taylor, John Pilling, Col. A. G. Walsh, C. A. Smith, Fred Pillings, J. F. Sawyer, G. M. Higginson, Daniel E. Carroll, John A. McKenna, J. O. Heinz, Percy Parker, Charles Keyes, E. B. Cavanagh, George A. Scribner, Andrew G. Swapp, T. P. W. Reilly, Nathan W. Lanson, Thomas E. Costello, Harry D. Rice, George E. Putnam, Frank S. Bean, E. P. Cheney, Frank Bailey, Frank Hackett, Anna Pratt, Thomas O'Donnell, C. E. Hansen, Miss C. S. Proctor, F. C. Garrett, Percy D. Thompson, George E. Chandler, L. S. Faulkner, N. E. Borden, R. M. Morse and Al. W. T. Tid's committee, so it was stated, may be increased later on.

On motion of Mr. Coburn, it was voted that the chairman of the committee be empowered to create and fill vacancies.

Mr. Harry Rice spoke on the importance of securing a guarantee fund and said that the first thing to be found out was if the club could secure the sum of \$10,000. He said that if that amount could not be secured, the proposition might as well be dropped where it is now. He said that it was necessary to have something as a foundation to work upon.

The speaker suggested that special stamps be issued, advertising the proposed carnival, to be sold to all of the business interests of the city, that they might place them on their mail and in this way not only advertise the event, but also assist in bearing the expense in a small way.

Mr. Heinz explained the importance of getting the fund assured in the very near future because of the fact that it will be necessary to be ready to draw up a bill to the legislature for the purpose of getting the right of way on the roads on which the races would be held. If this is to be done it must be acted on within a short period, two weeks at the most. "Unless we get this bill entered into the legislature," said Mr. Heinz, "we will be unable to get entry blanks or the sanction from the A. A. association, which is essential to the success of the affair."

Mr. Rice stated that he had heard it suggested that a three or four days' vacation.

### LORD BERESFORD

#### WANTS A LARGE AND POWERFUL NAVY

LONDON, Mar. 31.—There is strong prospect that the picturesque and popular figure of Admiral Lord Charles Beresford, will be soon immediately in the thick of the political struggle, throwing fresh fuel on the naval agitation. England's foremost admiral has always been outspoken concerning his views and desires, and, since his return to London, after having been relieved of the command of the channel fleet, he has talked freely with his friends, declaring he would do all in his power to stir up the country to insist upon a large and particularly a more efficient navy.

At the suggestion of M. Marks it was decided to draw up a list of 500 or more names of prospective contributors and have the list portioned off to the members and that they visit the people, person, with an idea of getting their contribution.

That this work should be accomplished at the earliest possible time, it was voted to meet again next Friday night at 8 o'clock at the board of trade rooms.

### LOWELL OPERA HOUSE

"The Great Divide," with John Ivies Jr. and Clara Kraft in the leading roles, will give its last performance here at the Opera House tonight. As it is Henry Miller's announced intention to retire his play at the end of the present season, it is doubtful if local theatregoers will have another opportunity of witnessing another performance of it for some time. The cast and production is every way worthy of the vigorous and gripping play of American life depicted by William Vaughn Moody in "The Great Divide."

M. PAUL CAZENEUVE.

Tomorrow at the Opera house, M. Paul Cazeneuve and company from the National French theatre of Montreal, will present in French, Delibes' romantic drama "Don Cesar de Bazan," the scenes of which are held during the reign of Philip II of Spain. In the role of "Don Cesar" M. Cazeneuve is seen at 12:30 p.m. and in the supporting company are the principal artists of the National theatre, Montreal. A complete production is carried by the company and an excellent performance is promised.

MOVING PICTURES NEXT WEEK.

A special religious program of moving pictures and sacred songs will be offered at the Opera House every afternoon and evening next week, with an entire change of program on Thursday. Among the subjects to be offered are "The Tale of the crucifix," "Jerusalem," Samson and Delilah and several other biblical subjects. The songs as rendered, will be a feature of the big program to be presented and new songs will be sung.

good seat. Reserved seats, five cents extra.

### THEATRE LA SCALA

Lovers of western melodrama should not miss the great motion picture "The Red Agent," now being shown at the Theatre La Scala, it is thoroughly western from start to finish and its very realistic scenes in the mountain passes make it a very interesting picture. "Energized Street Sweep" is a clever comedy and "Midnight Disturbance" promises to be a most interesting picture. One of the songs, "My Saharan Belle," is the hit of one of the season's most successful musical comedies and sing as it is by Jack Manchester it proves one of the best of the recent songs. Miss Tessier sings "When the Leaves Turn to Gold" in an unapproachable manner.

STAR THEATRE

On a fair afternoon when women are shopping, many of them attend one of the performances at the Star theatre and the most obvious reasons for this are that the admission of five cents entitles them to seats that cleanliness and good ventilation are a marked feature of the interior; that a singing orchestra and a talking picture company are in addition to the regular performance of motion pictures and illustrated songs.

Tomorrow a new talking picture will be presented and new songs will be sung.

KILLED HIMSELF

WASHINGTON, March 31.—Henry A. Griswold, formerly president of the Anacostia & Potomac Railroad Co., now a part of the Washington Railway and Power Co., killed himself with a shot gun here yesterday. He was a wealthy real estate broker and belonged to a prominent family at Weatherly, Conn.

GRAUSTARK.

Judging by the unusual interest manifested by all classes of the audience at the Opera House, soon, nearly every one in town must have read the novel. The company presenting the play is highly qualified and the scenic production is said to be the best of the big program to be offered.

EDDIE FOY.

Madison and Cook is the latest team of vaudeville players to make good in the musical comedy field. When they appeared with "Mr. Foy of Broadway" at the Casino theatre, New York they received the

most elaborate ever taken on tour.

HILL ELECTED PRESIDENT

BOSTON, March 30.—Henry H. Hill, vice-president of the Massachusetts society for the prevention of cruelty to animals, was elected president pro tem to succeed the late George T. Angell at the annual meeting of the society today. A nominating committee was chosen from the board of directors of the American Humane Education society and the Massachusetts society to report at the next meeting on the choice of a permanent president.

WESTFORD

A meeting of unusual interest was held by the Tadpoles club Tuesday afternoon. Two of the members, Mrs. H. V. Hildreth and Mrs. C. L. Hildreth, had well written papers on "The Women of the North and South During the Civil War."

Mrs. H. V. Hildreth took the southern and Mrs. C. L. Hildreth the northern women and each had instructive papers, showing the splendid character, the wonderful courage and bravery of the women during the terrible fight between the north and the south.

At the next meeting, April 13, M. C. O. Prescott will give selected readings on India.

ANNIVERSARY MASS.

An anniversary mass will be celebrated at 8 o'clock Friday morning at St. Peter's church, for the late John O'Connell.

JASPER HAND DEAD

SALT LAKE CITY, Utah, March 31.—Jasper Hand, a New York millionaire, vice-president of the Ingersoll-Rand Drill Co., president of the Indian Rock Powder Co., and a prominent club man of New York, died at St. Mark's hospital last night.

RECTOR CALLED

MILFORD, March 30.—Trinity Episcopal parish voted last night with unanimity to instruct the vestry to formally call as rector Rev. George A. Barrow, now assistant rector of St. Stephen's church, Fall River.

LEGAL NOTICES

COMMONWEALTH OF MASSACHUSETTS, Middlesex, ss. Probate Court.—The heirs of the estate of Jessie Stewart Skeen, late of Aylsham in the County of Norfolk, Scotland, deceased.

Whereas, a petition has been presented to said Court by Margaret Skeen, widow of the said Jessie Stewart Skeen, for a certificate of her right to receive a copy of the will and a testament of said deceased, and of the residue thereof in said Court, duly authenticated representing that at the time of her death said deceased had estate in the County of Middlesex, and letters testamentary thereon granted to her without requiring sureties on her bond.

You are hereby cited to appear at a

private court, to be held at Cambridge, in the County of Middlesex, on the fourth day of May, A. D. 1909, at nine o'clock in the forenoon, to show cause, if any you have, why the same should not be granted.

And said petitioner is hereby directed

to file a written notice thereof, by

posting it on the door of the said

Probate Court, at the time of

posting by filing it at 238 Broadway

NIGHT EDITION  
BRUNNELLE MISSING

## Police Officer Found Clothing Belonging to Him

The finding of a man's overcoat and Louis Brunelle's, Dalton 19, Whitford, Chaloux 17.

By referring to the directory it was found that there was a Louis Brunelle residing in Perry's court, but when the police went to the address no one knew Brunelle.

Inquiry at the Merrimack mills brought out the information that a Louis Brunelle had been employed at the mill, but that he had not been at work since last Saturday.

During the course of the investigation it was learned that a man giving the name of Louis Brunelle was arrested Sunday night and in all probability the man arrested is the Lewis Brunelle who owns the coats which were found this morning.

While Patrolman P. H. Morris was covering his beat about eleven o'clock Sunday night his attention was attracted to a man, who had neither hat nor coat on, rushing through the street. Inasmuch as the man was very much under the influence of liquor he was sent to the police station where he gave his name as Louis Brunelle and his residence as Chaloux street.

In police court Monday morning he was fined \$5. A woman supposed to be his wife called at the police station with a coat for him and Keene McQuade allowed the man to take a cap until he purchased one. Brunelle went out and purchased a golf cap and a little later returned Mr. McQuade's cap.

A call in Chaloux street resulted in the location of a Peter Brunelle, who denied that he had ever been arrested, but all efforts to locate a Louis Brunelle were fruitless.

## CAR SPRINKLERS

The Contract Held Up by Mayor Brown

"If there is any season of the year or any particular time in the year that our sprinklers should be in motion, it is this very season and this very time," said a Merrimack street merchant, today, and he voiced the general opinion.

The people suffered from the dust storm not because the streets are not as clean as usual at this season of the year but because of the circling, whirling, collectiveness of the March winds. The only remedy to be found is the use of the car sprinkler, but just because there seems to be a little hitch in the contract the chances are that the car sprinklers will not be put into operation for several days to come. Perhaps when April has been ushered in and has spent a few weeks with us the car sprinklers will appear, but March and her winds will have beat over the hills and there will be not wind enough to interfere with the sparrow's flight.

Mayor Brown is holding the car sprinkler contract up in this way. He says that the car sprinkling concern wants a five year contract and he does not believe in that kind of a contract.

The mayor thinks the street railway company should pay part of the expense and that men not boys should be employed to run the sprinklers.

## PARK HOTEL

LUCIEN P. TURCOTTE WITH DRAW LICENSE APPLICATION

Letter to P. Turcotte was sent a communication to the body of police requesting permission to withdraw his application for a license at the Park hotel. This leaves John P. King the present holder of the license the only applicant.

# 6 O'CLOCK WAR IS EXPECTED

MEXICO CITY, March 31.—Rumors of an impending war in Central America are again current here and despite denials from the five little republics it is generally believed in well informed circles that the clash cannot be averted.

A private cable received here says Guatemala has moved a large force of infantry, artillery and cavalry to the border. The Honduran minister has demanded an armistice and has reportedly hostile and has the main combatants.

In this connection the ordering of four hundred troops southwest by the way to check the culmination of the revolutionaries who landed on Guatamala yesterday having for its purpose the overthrow of President Diaz.

It is believed here that Cabral is preparing to check an invasion and they will watch developments.

that the long expected clash between Cabral and Zelaya is about to occur. War within ten days is the prediction of the English colony here.

Guatemala and Salvador will be aligned against Honduras and Nicaragua according to these versions. All the countries have been secretly armament and are now on a war footing.

Duration of Central America is to be the issue and Cabral and Zelaya have been informed by President Cabral.

In this connection the ordering of

four hundred troops southwest by the

way to check the culmination of the

revolutionaries who landed on Guatamala yesterday having for its purpose

the overthrow of President Diaz.

It is believed here that Cabral is preparing to check an invasion and they will watch developments.

# 60 IN BATTLE

BOSTON, March 31.—Three-score Armenians, shooting one another with pistols and machine guns, and with rifles and bayonets, were engaged in a fierce struggle in the Armenian quarter at East Watertown.

Another Armenian, desperately wounded, was thought to have crawled

out into darkness in a little recess of a rear window and across the

tavern, 1429 feet, was the scene that dark hours along the river.

A general alarm was gone out from

Woodman, when he opened the door at police headquarters for the apprehension of half a dozen men, accused of

murder in cutting, stabbing and

shooting, who had been captured in

the Armenian quarter.

Half of the thirty managed to escape before the policemen succeeded and who are thought to have boarded

single-handed in checking the scenes of carnage for Boston.

The riot began during a meeting of

Armenians in cutting, stabbing and

shooting, who had been captured in

the Armenian quarter.

The row started as a result of accusations of the secret society, known in

the Armenian tongue, as Tzani

found sprawled over the floor and as

handbags, that the Armenian fac-

many more had been carried away by the men misappropriating funds being

Lowell, Wednesday, March 31, 1909.

serious nature, and I do not apprehend

it will grow more serious."

"While a great many sensational rumors have been sent out regarding the Snake uprising the fact is not altered that the Snakes are a dangerous and turbulent lot and should at this time be suppressed once and for all."

W. M. Druffy, mayor of Checotah, declared that the Snake band must be

scattered as the officers desired to make it

quiet. The militiamen were able to

protect their prisoner but did not wish

to paralyze him as the locality has had

excitement enough. Many of his lead-

ers have already been captured and the chief himself has been ready

for two days to surrender but feared

for his personal safety.

"Crazy Snake sent in a courier and

offered to surrender if some of the

soldiers would accompany his men

to his hiding place and guarantee

his safety.

"Next to Crazy Snake the most dan-

gerous Indian in the Creek nation is

Abe Grayson, the half negro, who was

captured near Pierce. He is the cap-

tain of the negro element of the outlaw

band.

Grayson was discovered in a hay field

by Deputy Sheriff Sam Baker. He had

deserted his home and taken his bed

to the field. Rather than approach

Baker, he cut a hole in the door and

drove him from his bed. The militiamen

caught him without a fight.

The negro is reported as being

engaged over the capture of some of

the men of the militia. This is

regarded as adding danger to the situation.

Discussing this point Mayor

Thompson of Muskogee said:

"I do not hesitate to say that many

of the Shakes Indians and negroes still

with them are a menace to the

country and should be captured."

The people of this community are in

sympathy with any movement that will

suppress the Snake band. In my opin-

ion, the regiments are the most danger-

ous units. During the last few years

from 20 to 25 Indians have shifted here

from Texas and other southern states.

They are worthless and have caused a

great deal of trouble. Many Indians

of this country are peaceful and

innocent. A final stroke should be

made if it takes bloodshed. Harlo is a

dangerous Indian.

He is the captain of the outlaw

band. He is having a very

bad memory, which he really did

not get the crack in the head.

He was found guilty and sentenced

to two months in jail, appealed and

held under \$200 for the superior

court.

## MONTREAL TRAIN

FIGHTING THE FLAMES IN THE BURNING DINING CAR.

## Brought Burning Dining Car to This City

A dining car attached to the Montreal train due in this city at 6:37 p.m. caught fire beyond Tyngsboro, last evening, and was badly damaged before it arrived in this city where the fire was extinguished. The fact that the car was on fire was not made known to the passengers, and the men fought the fire bravely until the car landed in Lowell where it was side-tracked and the fire department summoned.

It was a Central Vermont parlor car, No. 153, and it was attached to train number 174, running from Mont-

real to Boston. The fire caught in the roof of the car and was caused by a defective pipe.

When the car arrived here, Operator Joseph Haggerty, the operator at the station, telephoned to the Branch street engine house, and the apparatus answered in a hurry. The fire had spread almost the entire length of the roof and had attacked the sides of the car. It was easy to get at, however, and was quickly extinguished by the department.

No one was injured and to estimate of the damage was made. The car will be sent to the repair shop. No damage was done the running gear. Otherwise the car is practically ruined.

## HAIR REMOVERS ARE DANGEROUS

Dr. Wertenbaker says: "Don't use Poisons! Deodorizers."

In treating superfluous hair it is of vital importance that the agent to be employed should be absolutely non-poisonous, astringent and germicidal, because if it is not used with frequent use it will produce ozone or fatal poisoning. The trouble with the majority of ladies is that they don't do a little thinking for themselves. When an alarm is made by some unscrupulous concern they take it as gospel truth. They never consider the possibility, neither do they question, as to whether any substantiating proof that a preparation is non-poisonous. Take

the trouble with the manufacturer is sufficient. To the contrary, ladies should be most particular in choosing a hair remover and learn first what reputable authorities know about it.

Dr. Wertenbaker, the prominent physician, says: "For several years I said to my patients, 'Don't use poisons! Deodorizers,' because they are bound to do harm." He found Dr. Mirabito to be absolutely non-poisonous, astringent and germicidal. None of these qualities is distinctly beneficial to the skin and under certain circumstances can it produce ozone or fatal poisoning. I have used the preparation in my office for a number of years, and find that the principle of its chemical and physiological action is correct. I consider it the only satisfactory method for the removal of superfluous hair."

Better take a doctor's advice, then do as I do. Use the safe and treatments which are advertised extensively in the newspapers. Remember, after you have used worthless concoctions it will be harder to remove the hair. Therefore, last, I say, better invest in the safe and treatments which are advertised in the papers.

We will send this absolutely safe, painless, seated, emollient, oil of patchouli containing full information concerning this remarkable treatment, as well as testimonials of prominent physicians, surgeons, dermatologists, medical journals and the principal magazines. You should not be afraid to write before you say the anything. I trust the subject exhaustively. Write to the DE MIRACLE CHEMICAL COMPANY, Desk 748, 1905 Park Avenue, New York, simply saying you want this booklet, and it will be mailed, sealed, at once.

## COAL OPERATORS

May Not Change Wage Schedule

PHILADELPHIA, March 31.—The anthracite coal strike commissioners award which results in six years industrial peace in the hard coal field employing 167,000 men and boys, will expire to-day at midnight.

The operators in the Scranton district will resume work Friday morning after the Thursday holiday suspension in celebration of the eight-hour work day in the soft coal field and will work until the close of the week. This means that there will be no strike and if there is any suspension it will be by reason of the miners not agreeing to stay at the collieries.

As the sentiment in this region is strongly against a strike if it is possible to come to some agreement with the operators it will be a blow to the miners. The operators will not be humiliating to the commissioners. It is certain there will be a full quota of men at work as long as the collieries are kept open for them.

As the sentiment in this region is strongly against a strike if it is possible to come to some agreement with the operators it will be a blow to the miners. The operators will not be humiliating to the commissioners. It is certain there will be a full quota of men at work as long as the collieries are kept open for them.

## Four Days More and the Sale is Over

Sale positively ends Saturday. LAST CHANCE to clothe yourself with "Good Clothes" at About Half Price. The next four days will be record breakers. ## FREDDIE MAGUIRE

## Local Boxer Enters the Ring Again

The Gladstone club meeting for Thursday evening of this week promises to be the most interesting ever held by that club and for two reasons: the first being that the two principal bouts are between boys in the 120 pound class, and the second, because one of the contestants in the main bout is Freddie Maguire of this city, one of the cleverest little men of his weight in the country. Of late Freddie has not been seen in the ring much for the reason that he could not get any one his weight to meet him. Within a year or so a number of new bantams have sprung up so that he can now find an occasional match. He will have 12 rounds with Young McCullough of Providence, R. I., who has a fine reputation. The semi-final will be six rounds at 110 pounds between Young Johnson and Young Murray of this city at 110 pounds. There will be preliminary in the 105 class and another in the 140 pound class. The little fellows always furnish the fastest bouts and hence there should be lots doing Thursday evening. The meeting as usual will be for members only.

## BASEBALL NOTES.

In beating Dallas, 3 to 2, one day last week, all the runs scored by Washington were made on home runs.

Jim McGuire is untying the practice games for the Naps and is coaching the young pitchers at the same time.

Condie Mack and Cantillon have gone on record as favoring the Clevelanders for this year's American league championship.

Hettmuller, Philadelphia's latest out-fielder, didn't need much spring training, having come east from California after a season of 205 games.

This year the Boston Americans will make 28 railroad jumps and will travel 11,521 miles, while the Doves will make 25 jumps, traveling 11,256 miles.

Not so much has been heard of McGraw's \$11,000 beauty, Marquard, since he was touched up for three home runs and four triples down at Martin.

Old "C" Young made a good start with the Naps, giving New Orleans only one hit in five innings, and holding his position in old-time form.

"Cap" Anson and his Chicago barn-owners, who will tour the east playing National, American, Eastern and New England league teams, left Chicago Sunday.

Bowerman is a little short handed for fielders on his barnstorming trip with the Doves' regulars, but will have both Thomas and Starr within call if anything goes wrong.

Pitcher Leibfeld of the Pirates has been set to work pitching to a mark on the fence by Fred Clarke. In the first practice game he pitched the hit four of the Yannigans with the ball.

McGraw again is reported to have forgiven Seymour, but the newspaper men with the Giants say that "C" has been paying his own hotel bill since his run-in with Arlie Latham.

Pres. Taylor of the Red Sox says he doesn't mind being interviewed and made the topic of good stories for the ball fans, but he won't stand for the story that he lost \$20,000 at Hot Springs.

Brookfield's infield appears to be as unsettled as ever. The Superbas have been up against more lame arms and minor injuries than any of the other major league outfits practicing on southern fields.

Pautzis, the Pennsylvania pitcher barred because of professionalism, will be worked out under George Stallings' eye this week. The Highlanders never have had very good luck with college pitchers.

In the first Eastern league game in which Buffalo and Newark meet the opposing pitchers will be "Dummy" Taylor and "Iron Man" McGinnity, which should give the game considerable class.

Johnny Cacash, the Giants' new infielder, has made 61 hits in 25 games this spring, average 611. He is playing rings around Herzog, who, when New York went south, was biffed for a sure place in the lineup.

George Dowey hasn't decided what to do with his replacement pitcher from the coast. Barney Joy, Joy did not write to headquarters for almost a year, but will have to settle with Col. Dowey before he can play on any team under the national agreement.

Phil Geier, who was Larry Lajoie's team mate at Fall River 12 years ago, who was wanted more than was Lajoie by the big league managers, dropped out of major company some time ago, and has now been sent from New Minneapolis to Topeka, while Lajoie is one of the great cards of the national game.

Comiskey maintains that while he will take his team to the coast again

next spring and in the fall of 1910 will round the world, that it is a question of only a few years before all the other major league teams will follow the example of Boston and Cincinnati and purchase or lease grounds in the south to be provided with grass diamonds and permanent equipment for training.

McNamee, who batted for 301 for Billy Bartholomew in the New England League last year in 100 games, and who has been with Connie Mack all spring, will remain with the Athletics. Mark likes the high school player's work, however, and will farm him out for the first few months of the season at least, so there is a chance that he may start with the New England League again.

Pitcher Castleton with the Reds this year, formerly was owned by the Highlanders. Two years ago he was the best man in the Southern League and had won 19 games and lost only 5 last season when he was taken down with typhoid. In these 18 games he only scored only 20 runs against him, and half of these were in one game. Griff expects he will be one of the sensations of the National League this year.

## "TOM" SHARKEY SAYS HE WILL CHALLENGE JACK JOHNSON

BOSTON, March 31.—Tom Sharkey of New York announced publicly from the ring of the Armory A. A. last night that if Jeffries did not challenge Jack Johnson within three months, he would issue a challenge himself.

"I have not had a glove on for six years," stated Sharkey, "but I am not an old-timer and I don't think much of the heavyweights of today. Girls are three months and I could get in condition to give any of them a go for their money. If Jeffries don't come out and challenge Jack Johnson within three months I will go after Johnson myself. I am only 35 years old and have still got something in me and I mean business."

## ASSAULTED REFEREE

BOSTON, March 31.—Dave Desider of Cambridge fought Patkey McLean, of Chicago 12 rounds to a draw last night at the Armory A. A. and on announcement of the decision McLean and assistant Referee Jack Sheehan knocked him down. A mixup followed in which the seconds and rabbis of both fights exchanged blows. Several outsiders jumped into the ring and broke up the melee and soon after McLean apologized for hitting the referee, but declared he thought the decision unfair.

The bout was an even thing throughout.

## THE WEST ENDS

## Took Two Points From the Avons

The West Ends won two of the three points in their game with the Avons in the minor league series last night.

The Avons started off well in the first string but went to pieces in the second and third. Peters of the winning team was high man.

In the Bowdaway League Locke's Pets put R. all over Henderson's Launchers, the Pets capturing two of the three points.

In the Corporation League The Knott trounced the Hamilton and the Lawrence aggregation trounced the Massachusetts team.

The scores:

MINOR LEAGUE

West Ends—H. Campbell, 262; Peters, 233; Dwyer, 271; H. Gendron, 252; Turner, 273; total, 1,284.

Avons—Dureault, 232; Gile, 273; Braut, 241; E. Buckley, 270; Langley, 253; total, 1,229.

BOWLING LEAGUE

Locke Pets—Lee, 260; Hanel, 255; Richardson, 256; Cole, 262; Shurtliff, 265; total, 1,222.

Launchers—H. Demers, 253; Aiken, 244; P. Demers, 245; Perrin, 255; Henderson, 251; total, 1,288.

DAVIS PETS WON

Davis Pets: Davis, 260; Wilson, 261; Nelson, 265; Kershaw, 266; Jacobs, 233; total, 1,176.

Williams Pets: Williams, 220; Goult, 223; Hall, 211; Fanning, 197; Brown, 218; total, 1,075.

CORPORATION LEAGUE

Boots: Abbott, 230; Kirby, 242; Gunston, 237; Luce, 266; Wetherby, 228; total, 1,273.

Hamilton: Lang, 218; Hovey, 241; France, 233; Johnson, 278; Gould, 250; total, 1,232.

Lawrence: Stearns, 274; Rice, 263; Robinson, 253; Butterfield, 252; Goss, 261; total, 1,277.

Massachusetts: Bicknell, 273; Gile, 241; McLean, 256; Walsh, 261; Morris, 251; total, 1,250.

SURPRISE PARTY

There was a surprise party held on Friday night at 100 South Walker street, the occasion being the 25th anniversary of Mrs. Gordon's wedding and also her birthday. There were between thirty and forty of Miss Gordon's friends present from Swansboro, Boston, Nova Scotia, Suncook, N. H., and Lowell.

Mr. Henry presented her a beautiful Roman gold locket and chain. She was also the recipient of many beautiful presents among them a large bouquet of flowers from the U. S. Army, of which she is a member.

Mr. Henry sang a solo entitled "Don't It Tickle You" and Mr. Herbert Shinn sang "Silvia."

Games were played and the happy party broke up shortly after midnight.

JOSEPH BIARSKY

FOUND GUILTY OF ASSAULT AND BATTERY

Joseph Biarsky was found guilty of assault and battery on Mrs. Gilmour in police court this morning, but the case was pended on file upon the payment of the costs of the court.

The case of George Martin, charged with threatening, scheduled for trial, was continued till tomorrow morning.

CARGO OF SNUFF

PROVIDENCE, R. I., March 31.—Exactly 1,016,400,000 "snuffies" will make up a single cargo to be carried from Philadelphia to New York during the next six months by the recently incorporated steamer "A. D. Longfellow," which has just put out one of the most remarkable charters in the history of coastwise trading. The "snuffies" will be carried from Black Island and Captain Murray was in command. She will carry 200 bags of snuff, each bag containing 10 pounds of snuff, which is equivalent to a pound of snuff.

LUX makes a delightful fragrance, lasts a long time, leaves the hair shiny and the scalp healthy.

## ROGER BRESNAHAN IN GINGERY PLAY

LITTLE ROCK, Ark., Mar. 31.—

All eyes are centered on Roger Bresnan, the young star of the St. Louis Cardinals. Many expect to see the future catcher get together a sturdy second division team this season. With the installation of Johnny McGraw's methods in handling a team it seems possible that Roger may

not of a success as John McGraw, his predecessor, was a failure. Though the Cardinals have now put in about two weeks of practice at Little Rock, Ark., and are apparently in fine play shape condition, it is hard to forecast at the present time what they will be able to accomplish in the coming National league race. Bresnan's name at the club is yet untried.

## TARIFF REVOLT

## CHECK FOR \$1000 IRISH LAND BILL

Led by a West Virginia Senator

Mass. Mills Present Gift Reintroduced by Secretary Birrell

WASHINGTON, March 31.—Senator Stephen B. Elkins of West Virginia upset Senate traditions and started a fire fight against the Payne tariff bill when he attacked the New England

London, Mar. 31.—Chief Secretary for Ireland Birrell yesterday reintro-

duced the Irish land bill in the House of Commons.

The bill is to exactly

the same form as when it was intro-

the course of his remarks the chief

secretary said again that it would re-

quire at least an expenditure of \$150,

000,000 to satisfy the land hunger of

the Irish, and of this total notwith-

standing the fact that the franchise tax

had still to provide \$175,000,000.

Although not satisfied with all of its

provisions, John Redmond, leader of the

Irish party, supported the bill.

Boston, Mass., Mar. 31.—

The directors of the Massachusetts

cotton mills desire to compliment Mr.

J. H. Stackpole upon the completion

this month of 50 years' service for the

company, and to assure him of their

high appreciation of his integrity and

truthfulness in his integrity, as well as

of his honorable service as a Union

soldier for three years during the Civil

war—which they learn constitutes

the only interruption to his labor in

the Massachusetts cotton mills since

March of 1856.

In token of which the directors

presented him a gold watch.

Mr. Stackpole was deeply affected

by this totally unexpected mark of

appreciation but expressed his sincere

thanks to his employer. The other

directors joined in the congratulations

and wished him many more years of

health and happiness.

Arthur T. Lyman, President.

For the Directors.

The accompanying cut was a

check for \$1000.

Mr. Stackpole was deeply affected

by this totally unexpected mark of

appreciation but expressed his sincere

thanks to his employer. The other

directors joined in the congratulations

and wished him many more years of

health and happiness.

John Redmond, leader of the

Irish party, supported the bill.

There are times when one finds himself

of the opinion that some corporations

# LATEST FIGHTS FOR CHILD

BRATTLEBORO, Vt., March 31.—An unusual instance of domestic infidelity came to the attention of Superior Judge F. M. Butler of Rutland here yesterday, at a hearing on a writ of habeas corpus for the release of Helen Sparrow of Avon, Pa., who was in the custody of Mr. and Mrs. Henry Sparrow of Bellows Falls, by whom she was adopted a few days ago. The girl is seven years old and is a daughter of Mr. and Mrs. Allan E. Sparrow of Avon.

A short time ago her father, who is a brother of Henry Sparrow, left home with the girl without telling his wife, of whom, it is alleged, he was jealous, where he was going and he took her to Bellows Falls, where she was adopted. The mother, who is seeking to gain possession of the girl on habeas corpus proceedings, says the child is deprived of her liberty without due process of law. It was admitted that the mother was not notified, but H. D. Ryden, counsel for the husband, contended that the adoption was strictly in accordance with the statute, which provides that where a minor is adopted the document must be signed by one of the parents.

E. W. Gibson, counsel for Mrs. Sparrow, contended that it was not constitutional, that it gave the husband the right to sign away the wife's right and interest in her child. Judge Butler said that in his opinion the husband's rights were not paramount to those of the wife, and that if they were on an equality the husband could not sign away the wife's right without her consent. He adjourned the hearing to April 12, to satisfy himself on these points, as apparently this is the first case of its kind that has come up in this state.

Judge Butler gave Mrs. Sparrow the custody of the child, Mrs. Sparrow furnishing a bond for \$1000 to keep her in the state and produce her in court when so ordered.

The statements of counsel showed that previous to this year Mr. and Mrs. Allan E. Sparrow and their daughter Helen lived in Avon, near Pittsburg, Fresh today, Howard, the druggist, Harvey E. Ames, who is now in New Haven jail in this country, went to their Lozenges relieve that tickle, Inc.)

## WAS MURDERED

MANILA, March 31.—Word has been received of the murder of Dr. William Jones, the noted anthropologist, who was in the field for the Field museum of natural history of Chicago. The murder occurred at Dumaguete at the head waters of the Cagayan river in the Island province. No details are obtainable thus far, but it is supposed that the scientist was set upon and killed by wild tribesmen.

Dr. Jones had been in the Philippines two years investigating the wild tribes on the island and preparing an exhaustive report of them for the museum.

For several months he had been studying the Negritos living among them in the hills. The government is preparing to send a party from Iloilo to the nearest post to Dumaguete to the scene of the murder to investigate.

### GEO. DOUGLAS

WAS NOT RELATED TO FORMER GOVERNOR

BROCKTON, March 31.—George Douglas, the wanderer, who died suddenly at Canton, Ohio, yesterday, and who claimed to be a brother of former Gov. William L. Douglas of this city, was not related in any way to the former governor, according to relatives and intimate friends of the latter. Former Gov. Douglas never had a brother and so far as known the Canton wanderer was no relation. At the present time ex-Gov. Douglas is at Miami, Fla.

### COAL OPERATORS

AGREE TO CONTINUE THE PRESENT AGREEMENT

NEW YORK, March 31.—The following statement was given out today in behalf of the anthracite coal operators:

"At the request of Mr. Thomas J. Lewis, who headed the committee of anthracite mine workers at the recent conference with the operators in Philadelphia, the operators have agreed to continue the present agreement to force on and after April 1 pending further conferences.

"The communication from Mr. Lewis came in the form of a letter to each member of the operators committee all replied that the proposed arrangement was acceptable to them."

### "COTTON KING"

TO MAKE A TOUR OF THE SOUTH

ATLANTA, Ga., March 31.—Daniel J. Sully, once known as "the cotton king" is in Atlanta today, beginning a tour of the south, which he says is for the purpose of perfecting plans which contemplate the conservative revolutionizing of the manner in which cotton is handled and marketed. Mr. Sully said that it is his ambition to hasten the day when the price of cotton will regulate itself automatically.

"My plan when worked out," he added, "will substitute for the present unsuccessful and sometimes extortionate middleman, a factor whose role will be very much that of the agent who stands between and represents both seller and investor in bonds and securities. And we will go before the farmer with such evidence that he cannot doubt in which direction his interests lie."

Mr. Sully says that by twenty years the majority of the New England cotton mills will be located in the south.

### JUDGE FOSTER

FORBIDS 20 YEAR OLD YOUTH TO MARRY

NEW YORK, March 31.—A judicial order of much interest to students of social science was issued yesterday by Judge Foster of the court of general sessions, in the case of Albert E. Johnson, a 20-year-old youth, several times arrested for theft. The magistrate forbade the youth to marry under penalty of a long term of imprisonment, which he declared he would impose in punishment of a larceny committed three years ago and on which he had at the time suspended sentence.

As he was about to be sentenced for this offence for breaking his parole, a young girl who declared she was his fiancee, interceded for him. It was at this juncture that Judge Foster issued the novel order.

"I have no intention of permitting a marriage which will breed more criminals," said he. "I will again suspend sentence on the grand larceny charge, but if I hear of your marrying without first obtaining my consent, I will send you to jail for a long term."

### HELD BY POLICE

OWENS IS UNDER ARREST AT AUGUSTA, GA.

BOSTON, March 31.—W. E. Owens, alias W. W. Fowler, who according to Despatches received here last night is being held by the police of Augusta, Ga., for the Boston authorities, is charged with having been implicated in a Mexican plantation development company in which a great many New England stockholders lost their entire investments. In connection with the promotion of the company, its chief promoter, F. E. Borse, is serving a long term in state prison. Owens has been sought by the Boston authorities for some time. A police inspector will leave at once for the south to bring Owens to this city.

### M. E. CONFERENCE

PAWTUCKET, R. I., March 31.—The annual conference of the southern New England Methodist Episcopal churches was formally opened in the First Methodist Episcopal church here today. Preliminary exercises were held yesterday and last night the anniversary of the Epworth league was celebrated. Mayor Kenyon presiding in the city.

There were 225 clergymen and about 100 laymen in attendance at the opening of the conference today. Bishop H. W. Miller of Philadelphia presided. The exercises began with a

communion service.

Arthur A. McCullough of this city and a leading Methodist expert here appointed captain of the All-New Epworth team, which will meet the West Methodist team April 19. Mr. McCullough, who is at present a member of the Epworth, will endeavor to recruit a representative New England Epworth and endeavor to find a delegate to the

Methodist conference.

Another A. McCullough of this city and a leading Methodist expert here appointed captain of the All-New Epworth team, which will meet the West Methodist team April 19. Mr. McCullough, who is at present a member of the Epworth, will endeavor to recruit a representative New England Epworth and endeavor to find a delegate to the

Methodist conference.

This is by far the largest average circulation of any newspaper in Lowell.

## SCIENCE OF EATING.

There is a good deal of misapprehension about eating on days of rest. The hard working man who would eat as much on a day on which he is idle as when he works would find himself, to the least, greatly distressed. The food taken into the system may be regarded as so much fuel required to keep the engine running. When the engine has to work hard more fuel will be required than when it is practically idle.

In Chicago a few years ago a number of the city horses kept in the stable for a week, got the usual allowance of grain given them when working. They died as a result.

There are boarding houses in Lowell and elsewhere that prepare but two meals on Sundays, late breakfast and late dinner, and unless the boarders are out for exercise they are satisfied with two good meals on days of rest.

Then there are in Lowell a great many people who "meal out," using a meal ticket by which they pay for each meal. These people, as a rule, eat but two meals at their regular boarding places on Sundays; but they are suspected of swelling the number of hotel guests, each of whom is satisfied with a sandwich and a drink.

In eating, the appetite is usually a safe guide but not so in drinking intoxicants. The man who tries to eat as much when not working as when engaged at hard work will soon suffer from disordered digestive functions.

## UTILIZING THE FORCES OF NATURE.

Some mechanical genius has proposed that we dig down deep enough into the interior of the earth to reach the molten matter and bring up the heat to run our machinery instead of burning coal. That is a splendid idea, but it would probably be more practical in the vicinity of a volcano than in the rather frigid climate of New England. To sink a couple of miles below the surface would be a difficult task, and if the molten matter was not then encountered all the work would be worthless. If it were reached and a shaft secured, then there would be a possibility of a cooling process that would defeat the object of the scheme.

This is a mode of utilizing the forces of Nature that has not been successfully tested; but so great has been the success of engineers in utilizing water power of rivers in saddling the tides and even using the wind and the sunlight for motive power that it is difficult to say what they will accomplish in other directions now unthought of.

Knowledge is infinite and the ingenuity of man is daily unlocking new secrets of Nature with the result that things more strange than wireless telegraphy and navigation of the air may be brought to light to astonish the present generation and go down to the next as one of the modern discoveries at which the people have ceased to wonder.

Perpetual motion seems to be the only thing that stops the inventive genius of man. That is apparently reserved as an attribute of the power of the Almighty.

## CONGRESSMAN GILLET'S BREAK.

Congressman Gillet, speaking in reference to the tariff tax upon tea the other day, made the statement that it would be a good thing to put a tax upon tea and coffee so that the people might feel the burden.

The congressman should realize by this time that the people have had burdens as heavy as they could bear during the past two years and still have enough without adding others. The republican panic brought them burdens which even, we believe, in the opinion of Congressman Gillet should be sufficient to impress them with the outrageously corrupt and extravagant government conducted by the republican party at Washington.

The burdens brought by the republican panic have not yet been quite overcome. Business has not yet been revived and the effects of curtailment and idleness in the factories are still felt.

Where, it might be asked, has Congressman Gillet been living that he thinks the people have not had burdens sufficient to impress them with the state of affairs at Washington and the need of statesmen to bring about a revival of prosperity?

The republican party secured re-election on the promise of revising the tariff. That meant a reduction of the tariff, not an increase, but the republican party, now that election is over, has already started out to increase rather than reduce the tariff.

Congressman Gillet is one of the instruments of oppression foolishly sent to Washington by the people out at Springfield in this state. The speech that he made advocating a tax upon tea and coffee proves that he is a misfit, that he doesn't realize what the people have suffered through republican corruption and republican alliance with the trusts of this country. He is but a tool for the trust magnates who are working through him and others to get their oppressive schedules re-enacted in the Payne bill.

The republicans have the votes and they will use them to pile up fresh burdens for the people and to re-elect the trusts that were brought to their knees by the policy of the Roosevelt administration.

The people of Springfield ought to be ashamed of Gillet; the whole people ought to be ashamed of him. They should remember this speech, and when Gillet comes up for re-election, they should impress him with their keen appreciation of the present burdens that he and others of his ilk have placed upon their shoulders, by telling him to private life where he belongs, so as to repair the mistake of ever sending him to congress. His sympathies are opposed to the people and with the trusts. His speech in favor of a tax upon coffee and tea just to stir them to do that for which he and others were elected to do is hypercritical sophistry and evasion of duty.

What is he doing to stop the burdens being piled upon the people? Is he not the plain tool of the standpatters who want to make the tariff higher instead of lower?

This assumption of vicious virtue will not blind the people as to his attitude, his shirking of duty and his effort to pose as a friend of the people while he is helping to accomplish their betrayal.

## SEEN AND HEARD

Nobody can really harm you but yourself.

We have all seen the first robin and Mary is exonerated.

A big Yorkshireman had come all the way to London to see the British Museum. Unfortunately, it was a day when the museum was closed. The intelligent Yorkshireman refused to take no for an answer from the policeman at the gate. "Ain't this public property?" he cried.

"Yes," admitted the policeman, "but I, being a bright idea, one of the munitions did on Tuesday, and do you begrudge us one day to bury him in?"

"Oh, excuse me," said the Yorkshireman in a hushed voice. "In that case I won't intrude."—Universalist Leader.

"After having several pet goldfish die with painful rigidity upon my strings," said a lover of the finny goldfish, "I have discovered the reason of either one reason why they have been so ungrateful. They do not care for filtered water. I have taken great pains to change the water often and keep it free from dirt of any kind. That is what has killed my fish. They enjoy a few grubs and water bugs, and the doctor tells me that the filtered water is absolutely without nourishment and therefore unnatural. Water should be changed only once a week or less, and the food should be given regularly. Too much clearness had my fish too much order and tidiness in their glass house, but from henceforth they will get all the real qualities of the unstrained water, and I shall hope for better results."

A woman wrote thirsty of "man": "A boy can sit still on a sled six hours square, tied to a sleigh moving eight miles an hour, but could not sit still on a sofa five minutes for a donut." A man will sit on an inch of a board and talk politics for three hours, put him in a church pew for 15 minutes, he gets nervous, twists, and turns, and goes to sleep. A man with pouch his cheeks with filthy tobacco, uses runs down his chin, feels good, but a hole in the butte kills him. He stays out till midnight, wife don't know where he is, comes home when he passes, but if a meal is not ready, just on time, pounds, growls and says impolite things. Evidently man is a strange animal. Gets full, beastly when on the losing horse, goes broke, quarrels, fights, lands in jail, eyes dressed for Easter, face fresened and morale depressed, yet he is "Lord of all creation and monarch of all the surveys." Strange animal this man."

## UNANSWERED QUESTIONS:

Why is it—  
That George Thompson eats rich foods and all of that—  
The starchy things, the fatty meats and still does not grow fat,  
While I, who fluctuate my face, And live on crusts and tea,  
Possess a hundredweight to spare,  
And can't be thin as hair?

Why is it—  
That John Brown can smoke fifteen cigars a day,  
And all tobacco-heart a joke  
For foolish people,  
While I am warned by wise M. D.'s  
To "charge a lady's feet  
Unless in Charon's boat I'd squeeze  
To let tobacco be?"

Why is it—  
Henry Pudds can just  
With anyone he meets,  
And make them laugh with hearty zest  
At fresh things he repeats,  
While I use familiar ways  
And say familiar things,  
A such that leaves me in a haze  
Is all such effort brings?

Why is it—  
That when stocks go down  
My orders are to "buy,"  
And all the world holds in sorrow from  
I pick things to go high?  
Why is it, too, that when you  
Are just the same as I,  
And of each thing you cannot do  
You ask the self-same "Why?"

# FUND OF \$10,000

## Is Wanted to Conduct the Great Auto Carnival

The auto carnival awaits a great carnival would be sufficient and that a week's affair, as suggested, would draw along. To this President Hiltz explained that four days might be enough, still it would be safer to reckon on a week so that allowances could be made for bad weather and the work of fixing up the course between races. "If we scheduled to hold one of the races on the opening day and it should rain we could very easily postpone it to another day of that week. Should the weather conditions prove satisfactory throughout we could easily fill in with attractions," explained the president.

Mr. William Robertson announced that he had visited the local garages and all of the owners had signified an active interest in the affair and promised that they would assist as best they could.

President Hiltz stated that the staged contributions to date had amounted to about \$1200, while additional promises would bring the fund up to a total of over \$2500.

On motion of Daniel Carroll it was voted to make the president and secretary members ex-officio of all committees. He further suggested that the city government might assist in the work by voting a small appropriation towards the fund.

Mr. Edward Cushing of the Richardson hotel invited the members to make their headquarters at his hotel and he added that he would go the limit in assisting the committees to bring about a successful termination of the proposed event.

It was finally voted to give the finance committee two weeks to report back to the main body whether it would be possible to raise the \$10,000 fund so that work on the affair might be set out with something definite to work for.

After adjournment, the finance committee went into session and outlined what must be done in the near future if the affair is to be carried out. Fred W. Coburn acted as temporary chairman and John A. McKenna as secretary.

"Now it seems to be up to this committee at this time," said Mr. Coburn, "to see if this proposed affair is to be a go or not. The members must set themselves down to some real work, work that calls for immediate action. If the thing isn't a go it will look as though the finance committee couldn't accomplish the work assigned to it, and we must get out and see to it that no blame can be laid at our door if the thing ultimately results in failure."

These remarks were taken up by the rest of the committee and soon expressions were coming from every side, which indicated lively interest on the part of all. Every member present expressed himself as willing to do his share of the work in an effort to give assurances for the fund at the end of two weeks.

At the suggestion of Mr. Coburn, it was voted that the chairman of the committee be empowered to create and fill vacancies.

Mr. Harry Rice spoke on the importance of securing a guarantee fund and said that the first thing to be found out was if the club could secure the sum of \$10,000. He said that if that amount could not be secured, the proposition might as well be dropped where it is now. He said that it was necessary to have something as a foundation to work upon.

The speaker suggested that special stamps be issued advertising the proposed carnival, to be sold to all of the business interests of the city, that they might place them on their mail and in this way not only advertise the event, but also assist in bearing the expense, in a small way.

Mr. Hiltz explained the importance of getting the fund raised in the very near future, a cause of the fact that it will be necessary to introduce a new bill into the legislature for the purpose of getting the right of way on the roads on which the races would be held. If this is to be done it must be acted on within a short period, two weeks at the most. "Unless we get this bill out into the legislature," said Mr. Hiltz, "we will be unable to get entry passes or the sanction from the A. A. association, which is essential to the success of the affair."

Mr. Rice stated that he had heard it suggested that a three or four days'

### LORD BERESFORD

#### WANTS A LARGE AND POWERFUL NAVY

LONDON, Mar. 31.—There is strong prospect that the picturesque and popular figure of Admiral Lord Charles Beresford will be seen immediately in the thick of the political struggle, throwing fresh fuel on the naval agitation. England's foremost admiral has always been outspoken concerning his views and desires, and, since his return to London, after having been relieved of the command of the channel fleet, he has talked freely with his friends, regarding the world to do all in his power to stir up the country to insist upon a large and particularly a more efficient navy.

Mr. Beresford explained the importance of getting the fund raised in the very near future, a cause of the fact that it will be necessary to introduce a new bill into the legislature for the purpose of getting the right of way on the roads on which the races would be held. If this is to be done it must be acted on within a short period, two weeks at the most. "Unless we get this bill out into the legislature," said Mr. Hiltz, "we will be unable to get entry passes or the sanction from the A. A. association, which is essential to the success of the affair."

Mr. Rice stated that he had heard it suggested that a three or four days'

### LOWELL OPERA HOUSE

"The Great Divide," with John Lee, Jr. and Clara Krull in the leading roles, will be given its last performance here at the Opera House tonight. As it is Harry Miller's announced intention to retire his play at the end of the present season, it is doubtful if local theatregoers will have another opportunity of witnessing another performance of it for some time. The cast and production is every way worthy of the vigorous and gripping story of American life depicted by William Vaughan Moody in "The Great Divide."

■ PAUL CAZENELUVE.

Tomorrow at the Opera house, M. Paul Cazeneluve, and company, from the National French theatre of Montreal, will present in French, D'Unger's romantic drama "Don Cesario Do Bazar," the scenes of which will be during the reign of Philip the Second of Spain. In the role of Don Cesario, M. Cazeneluve is seen at his best and in the supporting company the principal artists of the National theatre, Montreal. A compact, scenic production is carried by the company and an excellent performance is promised.

MOVING PICTURES NEXT WEEK.

A special religious program of moving pictures and sacred songs will be shown at the Opera House every afternoon and evening next week, with an entire change of program on Tuesday. Among the subjects to be offered are "The Tale of the Crucifix," "Jerusalem," Samson and Delilah and several other Biblical subjects. The songs as rendered, will be presented and new songs will be sung.

good seat. Reserved seats, five cents extra.

### THEATRE LA SCALA

Lovers of western melodrama should not miss the great motion picture "The Red Agent," now being shown at the Theatre la Scala. It is a thoroughly western from start to finish and its very realistic scenes and mountain scenes make it a very interesting picture. "Enterprize," Stroll, Sweeney, a clever comedy and "Midnight Disturbance" prove to be a most interesting picture. One of the songs, "My Sabbath Bell," is one of the season's most successful musical comedies and sung as it is by Jack Manchester it proves one of the best of the recent songs. Miss Tressie sings "When the Leaves Turn to Gold" in an unpredictable manner.

### STAR THEATRE

On a fair afternoon when scores of women are shopping, many of them attend one of the performances at the Star theatre and the most obvious reasons for this are that the admission of five cents entitles them to seats, that cleanliness and good ventilation are a marked feature of the interior, that a singing orchestra and a talking picture company are in addition to the regular performance of motion pictures and illustrated songs. Tomorrow a new talking picture will be presented and new songs will be sung.

KILLED HIMSELF.

WASHINGTON, March 31.—Henry A. Griswold, formerly president of the Anacostia & Potowmack Railroad Co., now a part of the Washington Railway and Power Co., killed himself with a shot gun late yesterday. He was a wealthy real estate broker and belonged to a prominent family at Weatherford, Conn.

HILL ELECTED PRESIDENT.

BOSTON, March 30.—Henry H. Hill, vice-president of the Massachusetts Society for the prevention of cruelty to animals, was elected president to succeed the late George T. Angier at the annual meeting of the society today. A nominating committee was chosen from the board of directors of the American Humane Educational Society and the Massachusetts Society to report at the next meeting on the choice of a permanent president.

EDDIE FOY.

Madison and Cook is the latest team of vaudeville players to make good in the musical comedy when they appeared with "Mr. Hamlet of Broadway" at the Casino theatre, New York they received the highest

### WESTFORD

A meeting of unusual interest was held by the Tadlock club Tuesday afternoon. Two of the members, Mrs. H. V. Hildreth and Mrs. C. L. Hildreth, had well written papers on "The Women of the North and South During the Civil War."

Mrs. H. V. Hildreth took the southern and Mrs. C. L. Hildreth the northern women and each had instructive papers, showing the splendid character, the wonderful courage and bravery of the women during the terrible fight between the north and the south. At the next meeting, April 13, Mrs. C. O. Prescott will give select readings on India.

### ANNIVERSARY MASS.

An anniversary mass will be celebrated at 8 o'clock Friday morning at St. Peter's church, for the late John O'Connell.

### JASPER RAND DEAD.

SALT LAKE CITY, Utah, March 31.—Jasper Rand, a New York millionaire, vice president of the Ingersoll-Rand Drill Co., president of the Indian Rock Powder Co., and a prominent club man of New York, died at St. Mark's hospital last night.

### RECDOM CALLED.

MILFORD, March 30.—Trinity Episcopal parish voted last night with unanimity to institute the vestry to formally call as rector Rev. George A. Barrow, now assistant rector of St. Stephen's church, Fall River.

# WOMAN SUFFRAGE

## Able Plea Made by Miss Ethel M. Arnold of England

Miss Ethel M. Arnold, the talented English lecturer, gave a delightful and interesting lecture on "The Progress of Women in Europe," last night at the residence of Mrs. C. A. Stell, the affair being under the auspices of the Lowell Society for the Enfranchisement of Women. The brilliant lecture threw much light on the subject and the audience found convincing arguments for women suffrage offered.

Mrs. Charles B. Palmer, president of the local society, presided, and after referring to the aggressive work of the organization, she introduced Miss Arnold as the speaker of the evening.

Miss Arnold, who has a pleasing appearance, an excellent voice and clear enunciation, interested her audience from the start. She spoke in part as follows:

"Before leaving England I was warned that I must be very careful what I said in regard to the suffrage question in this country—that there was very little interest in it, and that the issue was in fact a dead issue. My only answer was, that time would show. Time has shown. During the few months that I have been in America I have spoken on the suffrage in many cities, and in each city I have found a very keen interest in the subject. I have spoken always to large audiences, and so perhaps the majority of my audiences have not been thoroughly with me in all events. I have found a readiness to listen to the arguments, such as I have, if I should find in some cities on the other side."

### Doctors Watching Itching Scalps Heal

From Chicago Inter-Ocean

Eczema on the head and scalp, and dandruff, will soon cease to afflict mankind, according to Dr. Alpheus M. Churchill, who is in Chicago attending the convention.

"Any person can apply my treatment anywhere just as well as I do in the Franco-American Institute for Skin Diseases," said he Tuesday.

"Get from your druggist 2 ounces of quinolin dissolved in 32 pints of water, let stand and rub well into the scalp with the finger-tips. That is all there is to it. Two or three applications usually accomplish the desired results."

"Of 48 cases treated 35 were completely cured and treatment was beneficial for the other 3."

"The formation of dandruff causes an itching scalp. Scratching with the fingers spreads infection; therefore, quinolin can be used with good results as a preventative by anyone whose scalp is itching or forming dandruff. It is the best thing I know of to promote the growth of hair."

## HOW THEY CURE CATARRH UP IN MICHIGAN

"Catarrh gave me untold misery for a long time. Nothing gave me relief. Hyomei soon cured me."—Peter Stack, Ypsilanti, Mich., Nov. 17, 1908.

"I had a bad cough for over a year. No relief from three different doctors; thought I was going to die. I used Hyomei and got better right away. It saved my life."—Wilbur Rauh, Holt, Mich., Dec. 19, 1908.

"I had catarrh for years in throat and bronchial tubes. I had snorting sensations and could hardly get my breath. Hyomei cured me and I publicly recommend it."—Frank Landre, Yate, Mich., Dec. 2, 1908.

"For several years I suffered all the tortures from asthma that a person could and live to tell the story. I doctored constantly, but to no avail. Till I tried Hyomei. It gave me remarkable relief, and there is nothing too strong for me to say in favor of Hyomei."—Mrs. E. J. Henne, Flint, Mich., Dec. 5, 1908.

"Doctored and remedies never help."

Thousands of People in Michigan have been Cured of Catarrh, Bronchitis, Asthma, Croup, and Give Credit where Credit is Due.

"ed my hay fever, till I used Hyomei. It gave me great relief, and has my unqualified endorsement."—Louis A. Grobe, Flint, Mich.

"Hyomei has given me more relief from terrible catarrh than all other remedies put together. Put me down as a staunch friend of Hyomei."—Mrs. Grace Stephenson, Bellevue, Mich., Oct. 12, 1908.

"Hyomei (pronounced High-o-me) is the only sensible remedy for catarrh and respiratory diseases, because it is the only remedy that reaches the inflamed membrane and soothes and heals the sore spots."

"No stomach dosing with Hyomei—just breathe it in, and its antiseptic properties promptly penetrate every nook and cranny and kill all germs. And a complete Hyomei outfit, including a large rubber pocket inhaler, only costs \$1.00, and extra bottles of Hyomei, if afterwards needed, are only 50 cents. Sold in every town in America, and in Lowell by Carter & Sherburne, who guarantee it."

much to the old conservative suffragists as to the methods of the new and militant suffragists.

"At the outset, though the tactics of the militant suffragists alienated many people, yet they did bring the subject out of the somewhat apathetic atmosphere under which it reposed for many years."

The speaker made brief reference to the anti-suffrage league that recently came into existence under the auspices of Mrs. Humphrey Ward. She also spoke of the serious tactical mistakes of the militant suffragist and said that they were more than willing to pay for any mistakes they have made. She stated that though she did not speak from experience Hollowell jail is not a pleasant place to be in.

In conclusion Miss Arnold said: "I do not expect from it any immediate effect on the economic situation in respect to women's wages, though I believe its ultimate effect will be incalculable. I do not anticipate for it any sort of legislative millennium for women. I do not anticipate any marked change in the character of the legislation. Feminine opinion will be found to be greatly divided. I do not believe that women will plunge us into war, nor do I believe that their shaming from it will make it impossible for England to ever go to war again."

"What, then, do we anticipate? Well, broadly speaking, it is a general raising of the whole status of women, both mental and moral; and a fuller co-operation between the two halves of the community, for the whole community's benefit. Sex antagonism, we believe, will largely disappear, when the sexes are on a basis of economic and political equality."

"Then there are questions constantly coming up in politics that affect women more vitally than men. If protection is ever forced upon the English people without the English housewives having a voice in the matter, it will be a political crime."

"Mr. Roosevelt has said that the home is the most valuable asset of a

household, and that women are the natural guardians of the home. I agree with him fully. It is because of this, that the natural guardians of the valuable asset should have a voice in the conduct of the state. But conditions have forced women out of the home into the arena. Either women must be given economic support, or else, if forced into the arena, they must be given political equality."

"It is useless to say that the psychic force of women is less than the combined psychic force of men. The point is that here is a psychic force that should be utilized."

"The favorite argument that government is based upon physical force is an anachronism and a fallacy. It is a psychic, not a physical force. The whole tendency of evolution is in a psychic direction."

"There are those who say that universal suffrage is not the most rational basis of government. If universal suffrage will lead people to realize this, and to put suffrage on the basis of brains and qualification, it will accomplish a good end."

# PRESIDENT ELIOT

## Has Been Tendered the Ambassadorship to Great Britain

WASHINGTON, Mar. 31.—Pres. Taft, speaking at a dinner tendered to President Charles W. Eliot, of Harvard university, in this city last night, announced by direct inference that Dr. Eliot had been tendered and was considering the appointment of American ambassador to Great Britain. Senator Root of New York had indicated the selection of Dr. Eliot earlier in the evening, and President Taft made the announcement stronger by declaring he endorsed all that Sen. Root had said.

Sen. Root declared that "before whatever monarch he (Eliot) should stand, we will know our great republic in all its good qualities is represented by a true American gentleman."

The dinner was given by the Harvard Alumni of Washington.

President Taft, on arriving at the banquet hall, late in the evening, was greeted with rousing cheers of "Hail to Good Old Yale, Drinker Down" and with mine reverberating "Harvard Roar."

Dr. Eliot had earlier received an ovation.

Sen. Root was among the principal speakers of the evening.

The dinner had a decided dash of college spirit and reflecting songs and parades abounded. The guests included Sen. Lodge, Postmaster General Hitchcock and Secretary of the Navy Meyer.

Sen. Root fairly swept his audience on its feet when, in concluding, as declared:

"Should it so befall Dr. Eliot to be appointed as the American ambassador to one of the great courts of Europe, before whatever monarch he shall stand there we shall know our great republic in all the good qualities of truth and sincerity of nature, in all its plow-blades and aspirations, is represented by a man, an American gentleman, a scholar, a sage indeed."

President Taft was last to speak. He devoted himself entirely to a eulogy of Dr. Eliot and the ideals of education and the fostering of university spirit for which he stood. He referred to the Harvard president as the head of the educational movement of the past forty years. In concluding, President Taft caused another great outburst of cheering by declaring that no indorsement all Sen. Root had said in his tribute of Dr. Eliot.

"And especially do I share," said the president, "every word that Sen. Root has said as to what may happen to Dr. Eliot in the future."

Dr. Eliot has described a university as a collection of groups and modestly has ascribed the success of the Harvard university to the work of those groups. Rather do I think the success of the university is due to the man who has been in all of those groups, has welded them together, has carried the influence of one to the other and has brought about harmonious work for the common good."

President Taft spoke at length on

senator from New York made. Dr. Eliot is the dean of the teaching profession, and he has made that profession, already great and influential, the leading profession in the country. He has brought the university into such relation to public life that we cannot fail to owe to him a great debt of gratitude for having elevated public life in the way the university spirit, represented by him, has elevated it.

Sen. Root's expression of esteem for Dr. Eliot, especially with reference to his forthcoming foreign mission, included the statement that with him broad abroad "the people of the world will know of our true character."

### TRUSTEE REMOVED

BOSTON, March 31.—By a decision of the full bench of the supreme court late yesterday, A. Spaulding Weld was removed as trustee of certain property of Mrs. North Johnson Barbour and sisters, on the grounds of misuse of the control of the Johnson Educator Food Co. It was shown that Weld acted as trustee under an agreement to place stock of the plant in his name for the benefit of the company. It was claimed Weld used the stock to give himself authority to vote himself a salary of \$5000, which dated back and also to secure the management of the company.

### STOUT WOMEN BUY

## Rengo Belt \$2 Corsets WORTH \$3.00

RENGO BELT is a new corset designed especially to do away with the appearance of excess flesh.

The RENG BELT reinforcing belt and apron front, worked into the body of the corset and over the abdomen, is in just the right place to produce the smooth back and slender hip lines so widely advocated in advance dress models.

RENGO BELT is the most wonderful corset ever produced for medium and large figures. It gives a sloping waist line

which flows singly over the hips, and has length below the waist to make the stout figure trim and proportionate.

RENGO BELT corsets also have extra strength due to the double watch-spring steel boning which is twice as durable as the usual single boning. This boning is perfectly covered and made rustless before it is sewed into the corsets, and we guarantee that it will not break or pinch through.

If you have searched unsuccessfully for corsets that will actually give graceful back and hip lines with perfect comfort, you should be properly fitted with a RENG BELT.

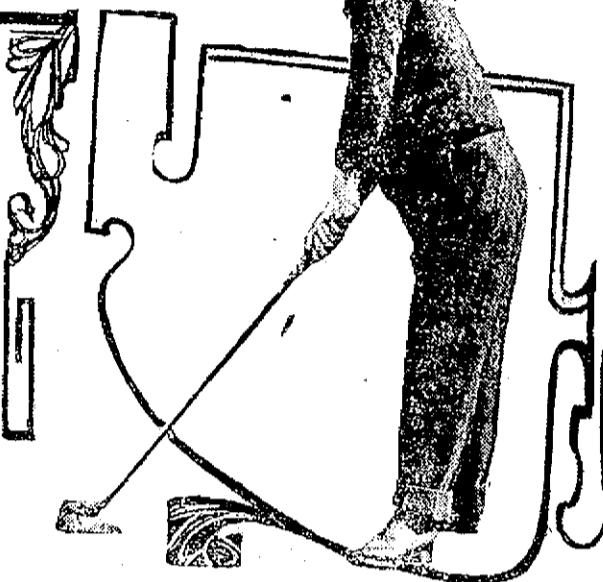

RENG BELT Style 41, for medium figure, price.....\$2.00  
Style 43, for tall figure.....\$2.00

## PRESIDENT TAFT

### At Play With His "Golf Cabinet"

WASHINGTON, March 31.—Golf is the regular diversion at the White House nowadays, and if every member of the "golf cabinet" does not become an expert it will not be President Taft's fault. The links of the Chevy Chase club are the scene of many famous contests. Vice President Sherman enters into the game with great zest, as does Secretary Knox. These photographs were taken recently when the president led the "cabinet" forth for a game. The men in the upper picture from left to right are Vice President Sherman, General Cleburne Edwards, major domo at the White House; Captain Butt, military aid to the president, and President Taft. The other player is Secretary Knox. Still

hardly necessary to say that the "golf cabinet" is another distinguished golfer with a "hole" still holds the highest score in the "leisure". Speaker Cannon also and imagines he could soon match

## EPWORTH LEAGUE

### Held Anniversary at St. Paul's Church

As Prelude to Methodist-Episcopal Conference—Address by Rev. Charles M. Melden on "The Christian Revolution"

The Epworth league held its anniversary in St. Paul's church last evening as a prelude to the Methodist conference, which opened this morning. Rev. H. W. Hook of Middletown presided and the attendance was large. The chorus singing, under the leadership of Rev. J. H. Pardee, was a feature of the exercises.

The address of the evening was delivered by Rev. Chas. M. Melden of Woburn, whose subject was "The Christian Revolution."

Rev. Mr. Melden spoke in part as follows:

"Christianity is essentially and emphatically revolutionary. It prepares to fight, 'verything wrong.' It knows no compromise. It lays the axe at the root of the tree of evil. All crimes, all prejudices, all abuses, it proposes to remedy by the eradication of selfishness and sin from human hearts. The program is to establish on earth a kingdom where righteousness and happiness shall reign. It will reform society by regulating the individuals which compose it. It throws out and casts out evil thoughts in the heart and establishes in their stead, righteousness. It gives the individual a clean new heart. Its method is from within out."

"This is, we believe, propounded ethically. In the main it is the man's surroundings are as it makes them. Society takes its color and

shape from individuals.

It is a composite photograph, comprising and containing the varied and various traits of its members. The phrase, "how to reach the masses," Christian; does not recognize as such, but only as individuals. No external protest will do the work. The individual must be changed through and through. New ideals of conduct, new loves, new habits, new affections must be in his heart. The gospel must place the word of God in his heart. The seed is planted. Christianity is to the individual what is needed necessarily. It is the greatest reformative agency for righteousness that we can conceive of."

"Huxley says that the creation of a new habit of thought is a greater achievement than the making of any mechanical invention. Christianity is the greatest habit of thought. It becomes the greatest agent for reform. The desire for perfection becomes the ruling passion of lives. First it affects individuals, then families, communities and their relations. Some there are who would reverse the process and who would claim that man is created by his circumstances, and who tell us that to change the individuals there must be a change in their surroundings. To sustain their contention they appeal to one of the well known laws of evolution.

"Surroundings undoubtedly do exert great influences, but while circumstances when propitious oftentimes do make great minds greater, it is the paramount thing to break down circumstances, and to create new ones."

"With France, by legal enactment

and its laws, and when she exiled her king, it seemed there as if the most patriotic spirits were vomited forth all over the country. Intemperance, the greatest祸 of all, was rampant, and the emblems of salvation and regeneration went to foreign shores together. The demon of liquor should be banished from the thermometer, and where he came and where he belongs."

"The establishment, as a result of the great revival of civic leagues, has paid general attention to the need of cleaning out the Augean stables of municipal misrule. They have been, and in many cases are a stench and a reproach. The larger cities are largely caned and ruled by a set of pirates. Such

tone from individuals. It is a composite photograph, comprising and containing the varied and various traits of its members. The phrase, "how to reach the masses," Christian; does not recognize as such, but only as individuals. No external protest will do the work. The individual must be changed through and through. New ideals of conduct, new loves, new habits, new affections must be in his heart. The gospel must place the word of God in his heart. The seed is planted. Christianity is to the individual what is needed necessarily. It is the greatest reformative agency for righteousness that we can conceive of."

The speaker then said he would give several illustrations of the work of the church. He cited the instance of the temperance history of Salisbury, Mass.

It had been kept in the "yes" column for years, but there chances to be a Methodist church in the town and the members of that finally rose to the situation confronting them. The young men proceeded to change things. They started on the voters and finally routed the liquor power. "Here is a foeman worthy of our steel," said the speaker.

thus liquor traffic. The saloon is the deadly, inveterate enemy of this church.

The defeat of one means the success of the other. The attitude of the church

is one of unyielding, uncompromising hostility to this awful traffic. The saloon is the greatest obstacle to the complete success of the church. Oftentimes have the ships which carried missionaries to foreign shores carried in cargo also the liquor. The emblems of salvation and regeneration went to foreign shores together. The demon of liquor should be

banished from the thermometer, and where he came and where he belongs."

"The establishment, as a result of

the great revival of civic leagues, has

paid general attention to the need of

cleaning out the Augean stables of

municipal misrule. They have been,

and in many cases are a stench and a

reproach. The larger cities are largely

caned and ruled by a set of pirates. Such

authority of its vast empire, could not check the onward rush of Civilization. The superstitions, as the Christians were called, could not be stamped out. In three centuries from its start Christianity occupied the thrones of the Caesars. Take the work of Paul in the Roman empire.

Seneca has said that Rome was a cesspool, and Juvenal had called it a sewer.

Paul came and said: "I am ready to preach God unto you."

The gospel, the power of God, salvation

were strange new words to the Romans.

And how well Paul succeeded with the Romans, we all know.

He founded the Christian church so

strongly that in the second century it had its temples everywhere. And this work has been repeated again and again.

The work has gone into Barbados, the South Sea Islands, the Fiji Islands, where but a few years ago it

seems, the inhabitants had never heard of God and salvation.

Dr. Butler founded Christianity in two continents, single-handed. This is the work the church is called upon to do.

The Roman empire was not con-

quered by Christianity because Constantine embraced it. It was only when the triumph was complete throughout Rome that Constantine sought refuge within. When the church gives up its evangelistic work, when it loses its power over the hearts of men, it has lost its reason for existence and the Great Master will take away its candlestick and give it to another."

The speaker then said he would give

several illustrations of the work of the church. He cited the instance of the temperance history of Salisbury, Mass.

It had been kept in the "yes" column for years, but there chances to be a

## Man Fired Five Bullets Into Head and Body

BOSTON, March 31.—Although he fired five bullets into his head and body in an attempt at suicide last night and although his clothes were on fire, having caught fire from the gun of his revolver, William Stoehr of this city was still alive at a hospital this afternoon. There is said to be little chance, however, that he can survive. Stoehr is a victim of throat trouble and worry, his friends say, unsettled his mind. Last evening he went into a Back Bay doorway and fired a 22 carbine.

## TARIFF REPORT

WASHINGTON, March 31.—The Senate will not be in session today but the house will continue the discussion of the period beginning Sept. 12, 1906, and paid fines of \$2000 each. Mr. Rutherford maintained that so long as the times were so small it would result in placing a premium on wrong-doing and also be considered a good investment on the part of the law breaker.

Mr. Brantley attacked the committee on the ground that it was solely in the interest of the New England manufacturer. The countervailing duty on coffee was opposed by Mr. Douglas, Ohio, who, he said, Brantley, which country it was directed, would be unable without impairing her fitness to remove her export duty on the product.

Mr. Rutherford, Pat, in a vigorous speech favoring a reduction on wood pulp and print paper severely attacked the Gould-Paper company and the Continental Paper Bag company. He quoted from testimony from representatives of these companies under date before the Mann committee in which it was stated they knew of no agreement or understanding among them fixing prices and yet, he said, both companies agreed to indefinitely

# 6 O'CLOCK WAR IS EXPECTED

MEXICO CITY, March 31.—Rumors of an impending war in Central America are again current here and despatches from the five little republics it is generally believed in well informed circles that the clash cannot be averted.

A private cable received here says Guatemala moved a large force of infantry, artillery and cavalry to the Honduras border. Honduran minister has demanded an explanation of this apparently hostile action and has been informed by President Calderon that the troops are being rushed eastward to check the emanation of the revolutionary plot hatched on Guatamalan territory having for its purpose the overthrow of President Díaz.

It is believed here that Calderon is preparing to check an invasion and they will watch developments.

# 60 IN BATTLE

BOSTON, March 31.—Three-hundred Armenians, slaying one another with knives, shooting right and left with a rear window and across the dark marshes along the river.

A general alarm has gone out from police headquarters for the apprehension of half a dozen men accused of implication in cutting, stabbing and shooting, who escaped after the meeting and who are thought to have headed for Boston.

The riot began during a meeting of the Hunchbacks, a secret Armenian society.

The riot started as a result of accusations of a national organizer of the faction of the secret society, known in the Armenian tongue as Tsan.

Seven men badly wounded were the Armenian tongue as Tsan found sprawled over the floor and as Hunchbacks, that the Azk Hunchbacks far many more had been hurried away by the police.

Basement

raised for revolutionary purposes. Several times in the past the police have suspected that mysterious gatherings in the restaurant conducted by Harry Cadet, who described himself as the station house as Charles Harris, were for other purposes than the educational. Testimony it was claimed were being delivered by prominent Americans.

There have been fights there before, the police say, but never anything to approach the nichts of last night.

Patrolman Woodman was putting his box half a mile away on the avenue when an Armenian in his shirt sleeves and bare-headed ran by crying "Murder! poison, come quick!"

Woodman stopped the fellow, who was so near shouting that he could only gasp the name of the place where the police were wanted. Then the police approached and caught a car, and two minutes later had arrived opposite the top walk on Western avenue.

Just then several pistol shots rang out on which he was riding.

He ran to the boarding house at 387 Western avenue, where he saw a knot of men rushing in, another man in the doorway, who had a bullet hole through his back.

Then other shots crashed out behind him and Woodman ran to the restaurant in time to cage a score or so of the rioters.

As he ran, the officer pulled out his revolver, and with leveled weapon stopped the men escaping from the doorway.

Someone lighted the gas jets. Seven men were lying on the floor among and beneath overturned tables, chairs and broken dishes. In the little back room, the kitchen of the establishment, several more or less disheveled and slightly bruised and scratched men were getting their breath.

The patrol and ambulance made more than a dozen trips before all the wounded, the witnesses and persons held on charges had been taken to hospital and station house.

EXODUS OF YALE STUDENTS

NEW HAVEN, March 31.—The spring exodus of the Yale undergraduate classmen for the Easter holidays which began today was of greater significance than in the past for about all the athletically inclined men are going south.

The varsity rowing squad under Coach Kennedy and Coxswain H. W. Woodman, who opened the door at 3:30 Western avenue, Brighton, at 3:30 last night.

Half of the crew managed to escape before the policeman started shouting in the street.

The riot began during a meeting of the Hunchbacks, a secret Armenian society.

The row started as a result of accusations of a national organizer of the faction of the secret society, known in the Armenian tongue as Tsan.

Seven men badly wounded were the Armenian tongue as Tsan found sprawled over the floor and as Hunchbacks, that the Azk Hunchbacks far many more had been hurried away by the police.

and their friends to neighboring buildings and to the Armenian quarter.

Another Armenian, despatched with weapons nearest at hand, at wounded, is thought to have crawled

in total darkness in a little less than a rear window and across the dark marshes along the river.

## NIGHT EDITION

## ROBBED OF \$3000

## Boston Man Was Victim of a Spanish Swindle

BOSTON, March 31.—Andrews Anderson, a fancy metal worker who has a shop on Harrison avenue, was recently induced to travel more than 6000 miles and forced to part with \$3000 by those who for 25 years have successfully operated the so-called Spanish swindle syndicate, with headquarters in Madrid.

As a direct result of Andrews' experience, the Spanish authorities have rounded up four alleged members of the gang. Lawrence Letherman, chief of the post office inspectors of Boston, told a reporter yesterday afternoon that the Madrid authorities felt positive that two of the suspects were the men who duped Andrews.

Mr. Letherman said this was the biggest round-up of Spanish swindlers ever made by the police of that country to his knowledge, and that Andrews' case was the worst instance of bungo in connection with the Spanish fraud that had ever been called to his attention. He also stated that the correspondence which Andrews got from the swindlers over the seas had all been forwarded by him several weeks ago to Washington and had subsequently been sent by the postal department to the Spanish authorities.

## May Be Called to Spain

The four arrests followed, and he added that late developments indicated that Andrews would in all probability be subpoenaed by the Spanish government to appear as a witness in Madrid for the purpose of identifying the men who tricked him. The Boston mechanic is impatiently awaiting the summons. His supreme hope for a month has been to return to Madrid and avenge his loss by legal process.

The inability of the combined powers of the world to stop this swindle is the fact that so many officials in the employ of the Spanish government were known to be connected with the swindlers.

## HELD IN \$25,000 CHECK FOR \$1000

Mrs. Boyle Charged Mass. Mills Present Gift With Kidnapping to Overseer

MERCER, Pa., March 31.—Mrs. Helen Boyle, wife of James Boyle, kidnapper of Willie Whilda, was arraigned before Justice of the Peace Thomas McClain here today, charged with kidnapping. She entered a plea of "not guilty" and was held for the action of the grand jury in the sum of \$25,000 bail.

Her husband waived a hearing as Sherman Monday and is held in jail here on a similar bond.

## A MUTINY

AMONG THE ZOUAVES IN YIELD DEZ KIOSK

CONSTANTINOPLE, March 31.—There was a mutiny among the zouaves of the guard quartered in the Yildiz Kiosk. The soldiers objected to a detachment of Anatolians joining the battalions and they refused to obey. The mutineers were surrounded by several loyal battalions and surrendered.

Fifty soldiers from another battalion have been banished to Tripoli for fighting in favor of disbanding.

**HOTEL HEARING POSTPONED**

The Park hotel hearing, scheduled to be held before the board of police this morning, did not take place. No date has yet been set for the hearing of the matter.

Money deposited this week at the Lowell Five Cent Savings Bank begins to draw interest April 3.

## THE 113th CONFERENCE

Of the New England Methodists  
Opened at St. Paul's Church

BISHOP JOSEPH F. BERRY, D.D., LL.D.

Over 200 Delegates Present—  
Memorial Service for the Dead  
Members—Eulogy on Rev. Mr.  
Kingsley, Who Died Recently  
in Lynn

With a large and distinguished gathering of clergymen in attendance the 113th annual meeting of the New England conference of the Methodist Episcopal church was opened in St. Paul's church, Hurd street. The session opened with holy communion at 9 o'clock, after which the secretary, Rev. James Mudge, called the roll of the 200 members of the conference. Bishop Joseph F. Berry, D.D., LL.D., was the presiding officer.

This is the 21st annual convention at which Rev. Dr. Mudge has officiated as secretary. His last pastorate was the Centralville M. E. church of

J. W. Higgins, J. M. Leonard and W. H. Meredith was appointed after a lengthy discussion to report on the sustentation fund and the matter will come up for discussion at 10 o'clock tomorrow morning.

## Memorial Service

Business at this point was suspended to permit the memorial service, eight members of the conference having died within the year. The first memorial was on Rev. William Ferguson delivered by E. B. Thorndike. The other memorials were as follows: Rev. John B. Gould, by Dr. Geo. S. Butters; Rev. A.

REV. GEORGE R. DEAN, PASTOR OF ST. PAUL'S

this city. He is now connected with Zion's Herald.

The conference was then organized by the election of the following officers: Rev. James Mudge, secretary; William Cassidy, statistical secretary; George H. Clark, treasurer.

The officers were authorized to appoint their own assistants.

Resolutions relative to the pending business were voted. The time of speeches by conference visitors was limited to 15 minutes by a close vote.

The minority motion of a time limit of 10 minutes was defeated.

A committee of five, consisting of

Rev. G. F. Durgin; Rev. B. F. Kingsley, by G. F. Durgin; Rev. N. H. Martin, by Geo. Whitaker; Rev. John D. Pritchett, by Dr. Butters; Rev. C. W. Bishop, by William F. Warren; Rev. W. B. Tullman, by Dallen Benson. The following memorials were also read: Mrs. E. E. Ayers, by W. M. Cassidy; Mrs. W. W. Delburn, by R. L. Green; Mrs. L. C. Clegg, by C. F. Rice; Mrs. Wm. Full, by A. B. Tyler; Mrs. John Noon, by G. A. Spencer.

The

beautiful eulogy on the late

Rev. Mr. Kingsley, formerly pastor of

the Highland M. E. church, this city,

was read by Rev. G. F. Durgin, of Lynn, as follows:

Benjamin Franklin Kingsley

Benjamin F. Kingsley was born in Hartford, Conn., in 1856. While yet in the prime of life he fell a victim to Bright's disease and passed from earth at the parsonage of the Maple street Methodist Episcopal church in Lynn on the 25th of February, 1909.

Brother Kingsley was converted in early manhood, at once knew his call to the ministry, and immediately began public service for the Master by street preaching and mission work in his native city. After a few months of these efforts he supplied the work on Savory and West Worthington circuits, entered the New England conference in 1888 and for more than 22 years gave faithful service to the Master and to the church, serving as preacher in charge at Hampden and Glendale, West Warren, Chester, Holyoke Highlands; West Pittsburg; Trowbridge Memorial in Worcester; Lowell Highlands, Parker Street, in Lawrence, and Maple Street in Lynn. He was a faithful pastor, an evangelistic preacher, and gave himself vigorously to every necessity of the church and community. He had an incisive and earnest way of pointing out sin and a loving and affectionate method of showing the Saviour to the sinner. With a rugged strength and manly bearing he won his way among men, and found delightful comradery in both ecclesiastical and secular associations. And among these he found helpers for the many projects he carried through successfully for the churches.

Self-sacrificing and not self-seeking, he generously gave himself, his ability and his substance to his people. Honest and sincere he was a host of friends, and the strength of his heart was felt in his friendships.

This was attested by the large number of ministers of this conference, people of the church and community, and representatives from other churches he had served who attended his funeral.

Tender, affectionate, thoughtful, he loved his home and gave himself unselfishly to those he loved.

In the native home are left a widow and a daughter who mourn with tender memory for him whom they loved.

The very best of his ministry was rendered for the children and for them he became an expert in the Sunday school and junior league. He had a passion for the young folks and an unusual wisdom in dealing with them. His children's church was an important feature of his work, and became a marked success.

His interest and efforts were abundantly repaid in the affection given to him in return. This had ample illustration during his illness and immediately thereafter. Two Worcester lads learning in Sunday school of his dangerous illness, without telling their parents and with scarce money enough for the trip, hurried away to Lynn to see him once more. He last probationers' class of young ladies, and the boys of the Junior League vied with the officials and the seniors in contributing to his comfort and joy during his last days. At the close of the funeral some 60 children, including several Roman Catholic children, were waiting at the church door. No one had prepared their coming. They asked permission to see their friend. They were admitted, and walking quietly by the casket, paid an unconscious and unexpected tribute to his love for children, and to his most effective ministerial service.

He suffered with characteristic courage and looked upon his coming death with a firm faith in God's love and the future.

During the memorial service there were solo by Mrs. W. J. Marcott.

Adjourned to 2 o'clock.

## Afternoon Session

Shortly before noon adjournment Bishop Barry announced that Rev. Dr. Chadbourne would preside at the afternoon session, which was called for two o'clock. When the morning session adjourned the delegates posed for a group photograph in front of the church, after which dinner was served in the vestry of the First Universalist church. After dinner and before the afternoon session several committees held meetings.

All the delegates were in their seats promptly at 2 o'clock when Dr. Chadbourne called to order and introduced the preacher of the conference sermon, Rev. Frederick Woods of Melrose.

There was music by Mrs. Charles A. Whittier. The conference sermon was in part as follows:

The foundation of the church is a human soul confessing Christ to be the son of the living God as Peter had just done.

No personal primacy is conferred upon Peter. Christ would say the same of the other disciples.

He says it of all who are to be built into the temple of the church.

The foundation of the church is not a man alone nor the great truth alone, but both together.

The disciples were not agnostics, they knew who Christ was, could define him and did define him.

He is today, the same person he was then and can be defined. Jesus had a mortal day in the history of mankind, but the Christ has none. In the beginning he was God.

The author of Christianity is the author of the universe.

The problem is redemption.

Who could ransom man, but he who created him.

Illustrious men have been benefactors of their race. Human nature had reached

high water mark without developing a redeemer when God sent his Son.

He is the central sun of the New Testament.

All others are planets, deriving their salvation from him.

We do not want man to meddle in the work of saving our souls.

Too many false prophets are gone out into the world.

How could one human heart and brain

contain all that a race in perpetual movement shall need forever.

In less than a thousand years he would be a dead Christ.

The redeemer must be God or nobody and he is God.

History repeats itself.

He is challenging his church today with the question, "Who do men say I am?" and we shout the answer back to heaven, "Thou art the Christ, the Son of the living God."

The truth of his divinity does not discredit the truth of his humanity.

The Son of God is also the Son of Man.

A crown of thorns was thrown twisted through

the crown of light.

It cost more to get the Son of God into the world than it did to produce all the wonders of the first chapter of Genesis.

There is manifested tremendous energy but no pain.

The Creator faints not, neither

is weary.

He goes to get his people.

He goes to get his church.

He goes to get his world.

He goes to get his universe.

He goes to get his God.

He goes to get his life.

He goes to get his death.

He goes to get his resurrection.

He goes to get his ascension.

He goes to get his parousia.

He goes to get his judgment.

He goes to get his hell.

He goes to get his heaven.

He goes to get his angels.

He goes to get his saints.

He goes to get his martyrs.

He goes to get his confessors.

He goes to get his ascetics.

He goes to get his heretics.

He goes to get his schismatics.

He goes to get his heretics.

He goes to get his schismatics.

He goes to get his heretics.

He goes to get his schismatics.

He goes to get his heretics.

He goes to get his schismatics.

He goes to get his heretics.

He goes to get his schismatics.

He goes to get his heretics.

He goes to get his schismatics.

He goes to get his heretics.

He goes to get his schismatics.

He goes to get his heretics.

He goes to get his schismatics.

He goes to get his heretics.

He goes to get his schismatics.

He goes to get his heretics.

He goes to get his schismatics.

He goes to get his heretics.

He goes to get his schismatics.

He goes to get his heretics.

He goes to get his schismatics

# LATEST FIGHTS FOR CHILD

BRATTLEBORO, Vt., March 31.—An unusual instance of domestic infidelity came to the attention of Superior Judge F. M. Butler of Rutland here yesterday, at a hearing on a writ of habeas corpus for the release of Helen Sparrow of Avalon, Pa., who was in the custody of Mr. and Mrs. Henry Sparrow of Bellows Falls, by whom she was adopted a few days ago. The girl is seven years old and is a daughter of Mr. and Mrs. Allan F. Sparrow of Avalon.

A short time ago her father, who is a brother of Henry Sparrow, left home with the girl without telling his wife, of whom, it is alleged, he was jealous, where he was going, and he took her to Bellows Falls, where she was adopted. The mother, who is seeking to gain possession of the girl on habeas corpus proceedings, says the child is deprived of her liberty without due process of law. It was admitted that the mother was not notified, but H. D. Ryder, counsel for the husband, contended that the adoption was strictly in accordance with the statute, which provides that where a minor is adopted the document must be signed by one of the parents.

E. W. Gibson, counsel for Mrs. Sparrow, contended that it was not constitutional, that it gave the husband the right to sign away the wife's right and interest in her child. Judge Butler said that in his opinion the husband's rights were not paramount to those of the wife, and that if they were on an equality the husband could not sign away the wife's right without her consent. He adjourned the hearing to April 12, to satisfy himself on those points, as apparently this is the first case of its kind that has come up in this state.

Judge Butler gave Mrs. Sparrow the custody of the child. Mrs. Sparrow furnished a bond for \$1000 to keep her in the state and produce her in court when so ordered.

The statements of counsel showed that previous to this year Mr. and Mrs. Allan F. Sparrow and their daughter Helen lived in Avalon, near Pittsburgh, 197 Central street. (Our Brougham Lozenges relieve that tickle, 10c.)

## WAS MURDERED

MANILA, March 31.—Word has been received of the murder of Dr. William Jones, the noted anthropologist, who was in the field for the Field museum of natural history of Chicago. The murder occurred at Dumobata at the head waters of the Cagayan river in Isabela province. No details are obtainable thus far, but it is supposed that the scientist was set upon and killed by wild tribesmen.

Dr. Jones had been in the Philippines two years, investigating the wild tribes on the island and preparing an exhaustive report of them for the museum.

For several months he had been studying the Ilongots, living among them in the hills. The government is preparing to send a party from Bagacay, the nearest post to Dumobata, to the scene of the murder to investigate.

**GEO. DOUGLAS**  
WAS NOT RELATED TO FORMER  
GOVERNOR

BROCKTON, March 31.—George Douglas, the wonderer, who died suddenly at Canton, Ohio, yesterday, and who claimed to be a brother of former Gov. William L. Douglas of this city, was not related in any way to the former governor, according to relatives and intimate friends of the latter. Former Gov. Douglas never had a brother and so far as known the Canton wonderer was no relation. At the present time ex-Gov. Douglas is at Miami, Fla.

### COAL OPERATORS

#### AGREE TO CONTINUE THE PRESENT AGREEMENT

NEW YORK, March 31.—The following statement was given out today in behalf of the anthracite coal operators: "At the request of Mr. Thomas L. Lewis, who headed the committee of anthracite mine workers at the recent conference with the operators in Philadelphia, the operators have agreed to continue the present agreement for one year, and after April 1 pending further conference.

The communication from Mr. Lewis came in the form of a letter to each member of the operators committee of seven. The members of the committee all replied that the proposed arrangement was acceptable to them.

#### "COTTON KING"

#### TO MAKE A TOUR OF THE SOUTH

ATLANTA, Ga., March 31.—Daniel J. Sully, once known as "the cotton king," is in Atlanta today, beginning a tour of the south, which he says is for the purpose of perfecting plans which contemplate the conservative revolutionizing of the manner in which cotton is handled and marketed. Mr. Sully stated that it is his ambition to hasten the day when the price of cotton will regulate itself automatically.

"My plan when worked out," he added, "will substitute for the present unsuccessful and sometimes extortionate middleman, a factor whose role will be very much that of the agent who stands between and represents both seller and investor in bonds and securities. And we will go before the farmer with such evidence that he cannot doubt in which direction his interests lie."

Mrs. Sully says that by twenty years the majority of the New England cotton mills will be located in the south.

#### JUDGE FOSTER

#### FORBIDS 20 YEAR OLD YOUTH TO MARRY

NEW YORK, March 31.—A judicial order of much interest to students of social science was issued yesterday by Judge Foster of the court of general sessions, in the case of Albert E. Johnson, a 20-year-old youth, several times arrested for theft. The magistrate forbade the youth to marry under penalty of a long term of imprisonment, which he declared he would impose in punishment of a larceny committed three years ago and on which he had at the time suspended sentence.

As he was about to be sentenced for this offence for breaking his parole, a young girl who declared she was his fiancee, interceded for him. It was at this juncture that Judge Foster issued the novel order.

"I have no intention of permitting a marriage which will breed more criminals," said he. "I will again suspend sentence on the grand larceny charge, but if I hear of your marrying without first obtaining my consent, I will send you to jail for a long term."

#### HELD BY POLICE

#### OWENS IS UNDER ARREST AT AUGUSTA, GA.

BOSTON, March 31.—W. E. Owens, alias W. W. Fowler, who according to despatches received here last night is being held by the police of Augusta, Ga., for the Boston authorities, is charged with having been implicated in a Mexican plantation development company in which a great many New England stockholders lost their entire investments. In connection with the promotion of the company its chief promoter, F. E. Borges, is serving a long term in state prison. Owens has been sought by the Boston authorities for some time. A police inspector will leave at once for the south to bring Owens to this city.

#### M. E. CONFERENCE

PAWTUCKET, R. I., March 31.—The annual conference of the southern New England Methodist Episcopal churches was formally opened in the First Methodist Episcopal church here today. Preliminary exercises were held yesterday and last night the anniversary of the Epworth league was celebrated, Mayor Kenyon welcoming the delegates to the city.

There were 225 clergymen and about 1000 laymen in attendance at the opening of the conference today. Bishop Luther H. Wills of Philadelphia presided. The exercises begin with holy communion.

Action A. McCullough of this city and a leading checker expert has been appointed captain of the All-New England team, which will meet the Wells Memorial team April 12. Mr. McCullough, who is at present a resident of the Hub, will endeavor to corral a representative New England gathering and expects to find a delegate in Lowell.

#### MEDICAL INSPECTOR DEAD

WASHINGTON, March 31.—Medical Inspector Henry T. Percy, U. S. N. died at the naval medical school hospital today from uremic poisoning. He was born in Roanoke, Va., and was 50 years of age.

## THOUSANDS OF MEN

The mission at St. Patrick's church, which is on its second and last week, is proving to be the largest and most remarkable in the annals of the parish, and the pastor and the missionaries as well are deeply gratified over its evident success. The mission opened with 1000 men in the church, and the pastor, the Rev. Fr. Justin Superior, Fr. Hilary, Fr. Vincent and Fr. Gaudentius, and their zeal, piety and eloquence impressed the great congregations from the very start, while the enthusiasm of those who reside in the parish has drawn Catholics from all over the city to the services.

The laboring man goes with his dinner pail in hand at lunch box under his arm and sits beside his boss or the man of wealth both on an equal footing as equals. Outside the church during the service may be seen buggies, heavy wagons and even automobiles. Several Pawtucketville business men who are attending the mission drive in their business wagons and pick up pedestrians on the way, arriving at the church with a crowd aboard. Every seat in the big auditorium is taken at each early mass, while the 9 o'clock mass is also well attended.

The favorite devotion urged by the Passionists upon their congregations is the stations of the cross and as a result of their exhortations practically every one of the several thousand men making the mission makes the stations of the cross at least once a day. The favorite time for the stations is after the 5 o'clock mass in the morning and before the evening services, and at those times both auditorium and basement are crowded. The hearing of confessions was begun yesterday afternoon and will continue until the last man has been heard late Saturday night.

At last evening's service Rev. Fr. Gaudentius gave instructions on "Confession," after which Rev. Fr. Vincent preached a powerful sermon on the familiar text, "The Wages of Sin is Death." The instructions at 5 o'clock mass this morning were given by Rev. Fr. Hilary.

#### Innaculate Conception Church

The mission at the Innaculate Conception church is proving one of the most successful ever conducted in the parish. The missionary priest, Rev. Francis Gallagher, C. S. S. R., is a most interesting speaker and a tireless worker. He is conducting the retreat alone, preaching every morning and every night, and celebrating the mission mass at 8 o'clock each morning. The first mass is celebrated at 5:15 in the morning and from all sections of Pawtucket, the Oaklands and Tewksbury the men come to attend the early morning service. The mass is celebrated in the upper church and the great edifice is well filled each day, other masses are celebrated at 6:30 and at 8 o'clock. After the celebration of the latter mass, Fr. Gallagher gives a short instruction. Last night the sermon was on "Scandal" and the preacher pointed out the great sin that commits when he gives scandal. He asked the men to be particular in the use of words and in actions that might give any occasion to scandal. The service opened with the recitation of the beads.

The service opened with the recitation of the beads by Rev. Fr. Sullivan, O. M. I. The congregation of men then sang two verses of the hymn, "Come, Holy Ghost." At conclusion of the sermon, a hymn to the Blessed Virgin was sung by the congregation. Benediction was given by Rev. Fr. Sullivan, O. M. I. The congregation of men then sang two verses of the hymn, "Holy God, We Praise Thy Name." Mr. Gallagher announced last night that confession will be heard today and this evening after the services, and then every day and evening until the close of the mission. He is anxious that those who are able to do so will go to confession during the day in order that the workmen may have an opportunity to be heard at night without being treated to any great delay. He advised that the men attend to the matter of confession as early as possible so that there will not be a great rush during the closing days of the week. The service tonight will begin at 7:30 o'clock and the sermon will be delivered after the recitation of the beads.

#### SOCIAL AND FRATERNAL

Oberlin Lodge, No. 23, I. O. O. F., met last night and rehearsed the third degree, under the direction of P. C. W. A. Coburn. A large number of other lodge members were present, and plans were formed for a special car to Lawrence on April 14th to see degree work in the little city down the river. Members of all lodges are invited to accompany them, and tickets can be obtained at Carter & Sherburne's drug store.

#### Royal Arcanum

A union meeting of all the Lowell and the North Billerica councils of the Royal Arcanum was held last night in Odd Fellows temple. Several candidates were put through a degree. The degree team was from Lowell council, No. 3, and the work was well done. Five candidates were initiated and following the meeting there were remarks by Grand Regent John J. Hogan, Past Grand Regent Alonzo G. Walsh, and Regents J. Horace Parades, Lowell council; Albert H. Bixby, Highland council; William Titcomb, Centralville council; Eric A. Johnson, John Erickson council, and Joseph Brown, North Billerica council.

#### Companions of Forest

Fidelity circle, Independent Companions of the Forest, held a special meeting last night, and passed upon routine business. It was voted to hold meetings on the first and third Mondays of the month instead of the first and third Thursdays, as has been the custom heretofore. Five propositions were received, and four candidates were initiated.

#### Pilgrim Fathers

Garfield Colony, No. 34, United Order of Pilgrim Fathers, held its regular meeting last night. Remarks and readings were given by different local members, and by Mr. Shaw of Columbia Colony, Lawrence. Action is to be taken at the next meeting in regard to holding the regular meetings twice a month.

#### ALARM FOR GRASS FIRE

The alarm from box 141 at about the noon hour today was for a grass fire in a field in Fairview street. No damage.

C. B. COBURN CO., 63 Market Street

## IF

The word if is little, but oh my—what a multitude of trials and tribulations can be attributed to that little word if. It is used every second of a minute, every minute of an hour and every hour of a day, the world over.

What would we do without this little word? Goodness knows.

If you are the man who has been paying \$15, \$18 or \$20 for your suit and you intend to come out to buy one at this price for Easter, we say, if you take the trouble to do a little shopping and see what others offer at above prices, and if our all worsted suits at \$9.95, \$11.95 and \$14.95 don't compare with those sold elsewhere at a five dollar bill more, we will bow to the inevitable.

If one buyer sends another, it's the best proof we are giving the values we say. That's what's happening every day, so if you look into what we say you can save the five dollars we claim you can. It's up to you, my friend, it's up to you. Don't falter by the wayside.

### KING'S CLOTHING CO.

## SCIENCE OF EATING.

There is a good deal of misapprehension about eating on days of rest. The hard working man who would eat as much on a day on which he is idle as when he works would find himself, to say the least, greatly distressed. The food taken into the system may be regarded as so much fuel required to keep the engine running. When the engine has to work hard more fuel will be required than when it is practically idle.

In Chicago a few years ago a number of the city horses kept in the stable for a week, got the usual allowance of grain given them when working. They died as a result.

There are boarding houses in Lowell and elsewhere that prepare but two meals on Sundays, late breakfast and late dinner, and unless the boarders are out for exercise they are satisfied with two good meals on days of rest.

Then there are in Lowell a great many people who "meal out," using a meal ticket by which they pay for each meal. These people, as a rule, eat but two meals at their regular boarding places on Sundays; but they are suspected of swelling the number of hotel guests, each of whom is satisfied with a sandwich and a drink.

In eating, the appetite is usually a safe guide but not so in drinking intoxicants. The man who tries to eat as much when not working as when engaged at hard work will soon suffer from disordered digestive functions.

## UTILIZING THE FORCES OF NATURE.

Some mechanical genius has proposed that we dig down deep enough into the interior of the earth to reach the molten matter and bring up the heat to run our machinery instead of burning coal. That is a splendid idea, but it would probably be more practical in the vicinity of a volcano than in the rather frigid climate of New England. To sink a couple of miles below the surface would be a difficult task, and if the molten matter was not then encountered all the work would be worthless. If it were reached and a shaft secured, then there would be a possibility of a cooling process that would defeat the object of the scheme.

This is a mode of utilizing the forces of Nature that has not been successfully tested; but so great has been the success of engineers in utilizing water power of rivers in saddling the tides and even using the wind and the sunlight for motive power that it is difficult to say what they will accomplish in other directions now unthought of.

Knowledge is infinite and the ingenuity of man is daily unlocking new secrets of Nature with the result that things more strange than wireless telegraphy and navigation of the air may be brought to light to astonish the present generation and go down to the next as one of the modern discoveries at which the people have ceased to wonder.

Perpetual motion seems to be the only thing that stops the inventive genius of man. That is apparently reserved as an attribute of the power of the Almighty.

## CONGRESSMAN GILLET'S BREAK.

Congressman Gillet, speaking in reference to the tariff tax upon tea the other day, made the statement that it would be a good thing to put a tax upon tea and coffee so that the people might feel the burden.

The congressman should realize by this time that the people have had burdens as heavy as they could bear during the past two years and still have enough without adding others. The republican panic brought them burdens which even, we believe, in the opinion of Congressman Gillet should be sufficient to impress them with the outrageously corrupt and extravagant government conducted by the republican party at Washington.

The burdens brought by the republican panic have not yet been quite overcome. Business has not yet been revived and the effects of curtailment and idleness in the factories are still felt.

Where, it might be asked, has Congressman Gillet been living that he thinks the people have not had burdens sufficient to impress them with the state of affairs at Washington and the need of statesmen to bring about a revival of prosperity?

The republican party secured re-election on the promise of revising the tariff. That meant a reduction of the tariff, not an increase, but the republican party, now that election is over, has already started out to increase rather than reduce the tariff.

Congressman Gillet is one of the instruments of oppression foolishly sent to Washington by the people out at Springfield in this state. The speech that he made advocating a tax upon tea and coffee proves that he is a misfit, that he doesn't realize what the people have suffered through republican corruption and republican alliance with the trusts of this country. He is but a tool for the trust magnates who are working through him and others to get their oppressive schedules re-enacted in the Payne bill.

The republicans have the votes and they will use them to pile up fresh burdens for the people and to bolster the trusts that were brought to their knees by the policy of the Roosevelt administration.

The people of Springfield ought to be ashamed of Gillet; the whole people ought to be ashamed of him. They should remember this speech, and when Gillet comes up for re-election, they should impress him with their keen appreciation of the present burdens that he and others of his ilk have placed upon their shoulders, by retiring him to private life where he belongs, so as to repair the mistake of ever sending him to congress. His sympathies are opposed to the people and with the trusts. His speech in favor of a tax upon coffee and tea just to stir them to do that for which he and others were elected to do is hypocritical sophistry and evasion of duty.

What is he doing to stop the burdens being piled upon the people? Is he not the pliant tool of the standpatters who want to make the tariff higher instead of lower.

This assumption of vicarious virtue will not blind the people to his attitude, his shirking of duty and his effort to pose as a friend of the people while he is helping to accomplish their betrayal.

## SEEN AND HEARD

Nobody can really harm you but yourself.

We have all seen the first robin and Mary is exasperated.

A big Yorkshireman had come all the way to London to see the British Museum. Unfortunately, it was a day when the museum was closed. The indignant Yorkshireman refused to take no for an answer from the policeman at the gate. "Aint this public property?" he cried.

"Yes," admitted the policeman; "but," he added, struck by a bright idea, "one of the minimes died on Tuesday, and d'you begrude us one day to bury him in?"

"Oh, excuse me," said the Yorkshireman in a hushed voice. "In that case I won't intrude."—Universalist Leader.

"After having several pet goldfish with painful regularity upon my hands," said a lover of the flinty gold strips, "I have discovered the reason of rather one reason why they have been so ungrateful. They do not care for filtered water. I have taken great pains to change the water often and keep it free from dirt of any kind. That is what has killed my fish. They enjoy a few gnats and water bugs, and the dealer tells me that the filtered water is absolutely without nourishment and therefore unnatural. Water should be changed only once a week or less, and the food should be given regularly. Too much cleanliness has been the ruin of order and business in their glass house, but from time to time they will get all the real qualities of the unadulterated fish, and I shall hope for better results."

A woman wrote thusly of "man":

"A boy can sit still on a settee six inches square, tied to a stool, moving eight miles an hour, but could not sit still on a sofa five minutes for a dollar. A man will sit on an inch edge of a board and talk politics for three hours; put him in a church pew for 49 minutes, he gets nervous, twists, and turns, and goes to sleep. A man will pouch his cheeks with glib tongue, juice runs down his chin, feels good, but a hair in the butter kills him. He stays out till midnight, wife don't know where he is, comes home when he pleases, but if a meal is not ready just on time, pouts, frowns and says impudent things. Evidently man is a strange animal. Gets full, beastly drunk, imagines he's rich, a great man, bets on the losing horse, goes broke, quarrels, fights, looks in jail, eyes dressed for Easter, face fresher and morals depraved, yet he is 'Lord of all creation and monarch of all the universe.' Strange animal this man."

## UNANSWERED QUESTIONS:

Why is it—  
That George Thompson eats Rich foods all of that—  
The Starved Oliver, the fatty meats  
And still does not grow fat?

Willie L. who likes his fare,  
Loves it, who likes his fare,

Possesses a hundredweight to spare,  
And can't be thin at all?

Why is it—  
That John Brown can smoke  
Fifteen cigars a day,  
And call tobacco a delicacy?

For foolish talk, I say,  
While I am warned by wise M. D's  
Who charge a lordly fee?

Unless in Charon's boat I squeeze,  
To let tobacco be?

Why is it—  
Henry Fudds can eat  
With anyone he meets,  
And then leave them with hearty zest  
At first, then, when he's饱了,  
While I, I understand, was  
And say, "I'm not as I  
Am of such thing you cannot do  
You ask the self-same 'Why'?"

WHY IS IT?

That when stocks go down  
My orders are to "buy,"  
And when the bulls go up in sorrow I own  
I pick things to go high?

Why is it, too, that he and you  
Are just the same as I,  
And of such thing you cannot do  
You ask the self-same "Why?"

WHY IS IT?

That when stocks go down  
My orders are to "buy,"  
And when the bulls go up in sorrow I own  
I pick things to go high?

Why is it, too, that he and you  
Are just the same as I,  
And of such thing you cannot do  
You ask the self-same "Why?"

WHY IS IT?

# FUND OF \$10,000

## Is Wanted to Conduct the Great Auto Carnival

The auto carnival awaits a great carnival would be sufficient and that amount of \$10,000, it being felt that the raising of that amount of money within a fortnight is necessary to assure success of the project. Such was the consensus of opinion of the meeting of the Lowell Automobile club held last night when the club met for the purpose of organizing for the year.

The meeting was held in the board of trade rooms and although there was a good attendance of members and unusual enthusiasm displayed during the night it was reported that the contributions were not coming in as fast as was anticipated and that unless more activity was shown by contributors in the near future there would be little chance of holding the proposed carnival.

It was shortly after eight o'clock when President John O. Heinz called to order with John A. McKenna as secretary. The first business of the meeting was the election of officers for the ensuing year which resulted as follows: President, John O. Heinz; vice-president, Fred W. Coburn; secretary and treasurer, John A. McKenna.

President Heinz said that he had outlined a series of events which included automobile races on two days, balloon ascensions, aeroplane flights, a Marathon race and several other novel and interesting athletic events, which would occupy the entire Labor Day week. These events were offered only as suggestions. He said that he had made out a list of committees which would look after the detailed work should the proposition meet the approval of the people. His reason for not publishing the list at the present time was for fear that the carnival would not be carried through.

He felt, however, that the committee on finances should be made known. This committee is made up of the following: Fred W. Coburn, Fred Horne, Paul E. Chaffoux, W. L. Robertson, J. M. Andrews, R. C. Hammick, Austin H. Chadwick, George H. Taylor, John Pilling, Col. A. G. Walsh, C. A. Smith, Fred Pilling, J. P. Sawyer, G. M. Hurligan, Daniel E. Carroll, John A. McKenna, J. O. Heinz, Percy Parson, Charles Keves, E. B. Conant, George A. Scribner, Andrew B. Swapp, Peter W. Reilly, Nathan W. Lamson, Thomas F. Costello, Harry R. Rice, George F. Patman, Frank S. Bean, E. P. Cheney, Frank Bailey, Frank Hatchett, Amasa Pratt, Thomas O'Donnell, C. H. Hanson, Maj. C. S. Proctor, F. C. Garrett, Perry D. Thompson, George E. Chandler, L. S. Faulkner, N. E. Borden, R. M. Morse and Al Wren. This committee, so it was stated, may be increased later on.

On motion of Mr. Coburn, it was voted that the chairman of the committee be empowered to create and fill vacancies.

Mr. Harry Rice spoke on the importance of securing a guarantee fund and said that the first thing to be found out was if the club could secure the sum of \$10,000. He said that if that amount could not be secured, the proposition might as well be dropped where it is now. He said that it was necessary to have something as a foundation to work upon.

The speaker suggested that special stamps be issued, advertising the proposed carnival to be sold to all of the business interests of the city, that they might place them on their mail and in this way not only advertising the event, but also assist in bearing the expense in a small way.

Mr. Heinz explained the importance of getting the fund assured in the very near future because of the fact that it will be necessary to introduce a new bill into the legislature to the purpose of getting the right of way on the roads on which the races would be held. It this is to be done, it must be acted on within a short period, two weeks at the most. "Unless we get this bill entered into the legislature," said Mr. Heinz, "we will be unable to get entry blanks or the sanction from the A. A. association, which is essential to the success of the affair."

Mr. Rice stated that he had heard it suggested that a three or four days'

### LOWELL OPERA HOUSE

"The Great Divide," with John Irving and Clara Kraft in the leading roles, will be given its last performance at the Opera House tonight. As it is Henry Miller's announced intention to retire his play at the end of the present season, it is doubtful if local theatregoers will have another opportunity of witnessing another performance of it for some time. The cast and production is every way worthy of the vigorous and gripping play of American life depicted by William Vaughn Moody in "The Great Divide."

— M. PAUL CAZENEUVE.

Tomorrow at the Opera house, M. Paul Cazeneuve and company from the National French theatre of Montreal, will present in French, D'Uzey's romantic drama "Don Caesar De Eazar," the scenes of which are laid during the reign of Philip the Second, of Spain. In the role of "Don Caesar," M. Cazeneuve is seen at his best and in the supporting company are the principal artists of the National theatre, Montreal. A complete scene production is carried by the company and an excellent performance is promised.

MOVING PICTURES NEXT WEEK.

A special religious program of moving pictures and sacred songs will be offered at the Opera House every afternoon and evening next week, with an entire change of program on Thursday. Among the subjects to be offered are "The Tale of the Cross," "Jerusalem," Samson and Delilah and several other biblical subjects. The songs as rendered, will be presented and new songs will be offered.

President Heinz stated that the signed contributions to date had amounted to about \$1200, while additional promises would bring the fund up to a total of over \$2500.

On motion of Daniel Carroll it was voted to make the president and secretary members ex-officio of all committees. He further suggested that the city government might assist in the work by voting a small appropriation towards the fund.

Mr. Edward Cushing of the Richardson hotel invited the members to make their headquarters at his hotel and he added that he would go the limit in assisting the committees to bring about a successful termination of the proposed event.

It was finally voted to give the finance committee two weeks to report back to the main body whether it would be possible to raise the \$10,000 fund so that work on the affair might be set out with something definite to work for.

After adjournment, the finance committee went into session and outlined what must be done in the near future if the affair is to be carried out. Fred W. Coburn acted as temporary chairman and John A. McKenna as secretary.

"Now it seems to be up to this committee at this time," said Mr. Coburn, "whether this proposed affair is to be a go or not. The members must set themselves down to some real work, work that calls for immediate action. If the thing isn't a go, it will look as though the finance committee couldn't accomplish the work assigned to it, and we must get out and see to it that no blame can be laid at our door if the thing ultimately results in failure."

These remarks were taken up by the rest of the committee, and soon expressions were coming from every side, which indicated lively interest on the part of all. Every member present expressed himself as willing to do his share or the work in an effort to give assurances for the fund at the end of two weeks.

At the suggestion of M. Marks it was decided to draw up a list of 500 or more names of prospective contributors and have the list portioned off to the members and that they visit the people in person, with an idea of getting their contribution.

That this work should be accomplished at the earliest possible time, it was voted to meet again next Friday night at 8 o'clock at the board of trade rooms.

### LORD BERESFORD

#### WANTS A LARGE AND POWERFUL NAVY

LONDON, Mar. 31.—There is strong prospect that the picturesque and popular figure of Admiral Lord Charles Beresford will be seen immediately in the thick of the political struggle, throwing fresh fuel on the naval agitation. England's foremost admiral has always been outspoken concerning his views and desires, and, since his return to London after having been relieved of the command of the channel fleet, he has talked freely with his friends, declaring he would do all in his power to stir up the country to insist upon a large and particularly a more efficient navy.

Mr. Beresford will be seen immediately in the thick of the political struggle, throwing fresh fuel on the naval agitation. England's foremost admiral has always been outspoken concerning his views and desires, and, since his return to London after having been relieved of the command of the channel fleet, he has talked freely with his friends, declaring he would do all in his power to stir up the country to insist upon a large and particularly a more efficient navy.

#### THE WITCHING HOUR.

"The Witching Hour," Augustus Thomas's telepathic drama, has appeared as a novel. Mr. Thomas himself made the play into book form.

#### HATHAWAY THEATRE

Willard Simms, the comedian who causes laughter even when he doesn't move a muscle of his face, will be found among the great big tenors at Hathaway's theatre, this week. Mr. Simms is capably assisted by Miss Edith Conrad.

Holden's minkies ought to please little people a whole lot. While they were not constructed for that particular purpose, nevertheless they will be especially well received by them. Lester Brothers and Crockett sisters give a novel act, a combination of singing and dancing, acrobatics and artistic posing. Other things on the bill are Fiddler and Shetland colored singers and comedians; Sherbrook and Alice Berry, the latter a comic comedian; LeRoy and LeVaux, comedy bar performers; Con Daly, singer and comedian; and the Hathaways.

Performances will be given every afternoon and evening during the remainder of the week, with special seats for women at the matinee. The theatre will be closed during Holy week but will reopen on Easter Monday.

#### ACADEMY OF MUSIC

When down town with a little time on your hands drop into the Academy and see a part of the show in all of it and you will be well repaid for the Academy is putting up a remarkably fine show for the sum of admission charged only a nickel. At the Academy one will always find bright, clean and new entertainments, lasting two hours, consisting of ten reels of first run moving pictures, ten illustrated songs, rendered by Miss Edith Raymond and Mr. Joseph Elliott of Lawrence, and a series of views of the world known as Travelettes. Special care is given to the comfort and convenience of women patrons and matron is in attendance at all times to look after them. The show runs daily from 2 to 3 and from 4 to 6 p.m. and Saturdays a matinee performance is given from 2 to 5 o'clock. The price of admission is always five cents and that includes a

good seat. Reserved seats, five cents extra.

— THEATRE LA SCALA

Lovers of western melodrama should not miss the great motion picture "The Road Agent," now being shown at the Theatre La Scala. It is a thoroughly western story, part to physics and its very realistic scenes in the mountain passes make it a very interesting picture. "Energetic Street Sweeper" is a clever comedy and "Midnight Disturbance" proves to be a most interesting picture. One of the songs, "The Sahara Belle," is the hit of one of the season's most successful musical comedies and as it is by Jack Manchester it proves one of the best of the recent songs. Mike Tessler sings "When the Leaves Turn to Gold" in an unpredictable manner.

### TO LET

HOUSE TO LET, 14 Chidden ave., 2 rooms and bath, steam heat, modern improvements. Also seven room tenement. Apply at 42 Middlesex st., Lowell.

NICELY FURNISHED FRONT ROOM TO LET, with or without just class boarders. Inquire at 39 Third st., Mrs. Nichols.

SMALL TENEMENT to let at 31 Middlesex st., Apply to Henry Miller & Son, Merrimack st.

STOP, LOOK AND LISTEN—Tenement of two rooms and large parlor to let. Apply at 71 Riverside st.

FLAT OF 3 ROOMS to let, in Belvidere, one mile from town, with bath, steam heat, modern improvements, mostly refinished throughout. Apply to Henry Miller & Son, 7 Merrimack st.

ONE 5-ROOM TENEMENT with bath, steam heat, gas and electricity, situated at 29 West 6th st., corner of Emporia, near St. Louis church. Apply to Frank A. Hammon, 1201, or Cabot and Merrimack st.

FAIRY SEVEN ACRES to let or for sale, plenty of fruit trees, land in best of condition. House 3 rooms, parlor, bath, hot and cold water, steam heat. D. L. Box 19, R. F. D. 1, Chelmsford Centre.

PHOTOGRAPHIC STUDIO, together with four-room tenement and bath, located one-half mile from town, with bath, steam heat, modern improvements, mostly refinished throughout. Apply to Frank A. Hammon, Tailor, cor. Cabot and Merrimack st.

TENEMENT FIVE ROOMS, parlor and bath, to let, \$1 a month. Apply at 37 Smith st.

TENEMENT OF SEVEN ROOMS to let, bath, pantry, and set tubs and heat furnished. Five minutes' walk from Merrimack st. Inquire at 133 Stackpole st.

TENEMENT OF 4 ROOMS to let, cor. Gardner and Middlesex st., in Gardner st., \$10. Inquire 113 Central st., Geo. H. Wood.

NO. 4 FRED ST. TENEMENT to rent, Apply to Mrs. Read, 871 Lakeview Ave., Apt. 411.

TWO FURNISHED or unfurnished rooms to let, suitable for light housekeeper. Near Shaw hosery. Apply 22 Chelmsford st.

SMALL TENEMENT to let, 73 Stackpole st.

FURNISHED ROOM to let at 309 Westford st.

STORE TO LET after April 1st, 70x30 ft., in Wier Bldg. Inquire at 70x30 ft.

BARN TO LET, 69 Third st., 7 stalls and carriage room for several vehicles. Excellent quarters for automobiles. Inquire at C. A. Richardson at the Five Cent Savings Bank.

5-ROOM TENEMENT to let, pantry, bath, hot water. Rent \$12.00, at 167 Grand st. Apply on premises.

HOUSING OF 1000 SQ. FT. at Merrimack st., to let for office or light manufacturing. Address P. O. Box 974, Lowell.

NEW UPSTAIRS, UP-TO-DATE FLAT, steam heat, electric light, all separate, to let at 161 Bridge st., 8 p.m. cars pass the door, or 10 minutes' walk to square. Fine location. Apply to Frank H. Hildreth.

FURNISHED OR UNFURNISHED rooms to let for light housekeeping. Steam heat, electric light. 75 East Merrimack st.

TENEMENT OF 7 ROOMS in two-story house in a fine residential section, Highlands, sunny and pleasant, to let, \$15 a month on electric light. D. H. \$16 a mo. Eugene G. Russell, 107 Middlesex st., near depot.

NICE TENEMENT on Stackpole st. to let; also nice tenement on George st. in Navy Yard, on Lakeview ave., also cottage on Fifth st. Inquire of John McNameen, 212 Merrimack st.

GOOD, HONEST BROWN MARE for sale, also 2 harnesses, 1 decorative wagon, 1 sleigh and 1 nice family cow. Must be sold at once. Owner leaving on account of his wife's death. 33 Rock st.

BUICK FOR SALE, with coaster brake and good tires. Will sell cheap. Price \$125 at No. 3, 3rd Bridge st., between 2nd and 3rd p.m.

HORSES FOR SALE—Gray mare, rough dried, \$15 per basket. Hand work. Open air drying. Home laundry. Address Q. Sun Office.

SECOND HAND FURNITURE wanted, bought, sold and exchanged. A. S. Edwards, 107 Fletcher st. Tel. 1978-5.

DRINK GLORIOL for health; sold everywhere.

LINDEY, CHIMNEY expert, Chimney sweep and all insects; cures children and pets.

MOTHERS—Bant's Destroyer kills all insects and all insects; cures children and pets.

LODGING HOUSE for sale, in business section of Boston, 30 rooms, at 21 St. Stamford st. Inquire at above address.

MASTER FIFPS for sale, Plymouth Rock eggs, also light Brahmas for hatching, 50 cents for 12 at McDonald's, 245 Merrimack st., Pawtucketville.

EMPTY PACKING CASES for sale, all sizes, 50¢ each. Scott, Tobacconist 225 Middlesex st.

WANTED

GROCERY STORE wanted. One doing a good business, in one of the city.

INTERIOR PAINTING IN perfect condition, for sale. Apply to C. T. Clifford, 229 Westford st.

LOST AND FOUND

SUM OF MONEY lost in the vicinity of Dark sq. Reward for return of same to Gorham st.

AMETHYST BEADS lost March 2nd between 609 Broadway and St. Pat's church. Reward for return to 229 Broadway.

SUM OF MONEY found between Dow's and Pollard's stores, Saturday eve., March 27. Owner can have same by proving property and paying for it. Call 4100 US st.

POCKETBOOK small sum of money and two sets of rosary beads lost somewhere between St. Patrick's church and Lawrence hosery. The finder will be rewarded by leaving at 229 Broadway, Call after 6 o'clock in the evening.

POCKETBOOK lost between Broadway and Walker st., and Varney st., containing sum of money. It was last night.

GOLD WATCH with strap lost between West and Centralville bridge. Finder please return to No. 8 West st. and receive reward.

A REG MUFF lost in the Pasteur theatre. Return to Lillian Durand, 609 Gorham st. Reward.

# WOMAN SUFFRAGE

## Able Plea Made by Miss Ethel M. Arnold of England

Miss Ethel M. Arnold, the talented English lecturer, gave a delightful and interesting lecture on "The Progress of Women in Europe," last night at the residence of Mr. and Mrs. C. A. Stott, the affair being under the auspices of the Lowell Society for the Enfranchisement of Women. The brilliant lecturer gave many lights on the subject and the audience found convincing arguments for women suffrage offered.

Mrs. Charles D. Palmer, president of the local society, presided, and after referring to the aggressive work of the organization, she introduced Miss Arnold as the speaker of the evening.

Miss Arnold, who has a pleasing appearance, an excellent voice and clear enunciation, interested her audience from the start. She spoke in part as follows:

"Before leaving England I was warned that I must be very careful what I said in regard to the suffrage question in this country—that there was very little interest in it, and that the issue was in fact a dead issue. My only answer was, that time would show. Time has shown. During the few months that I have been in America I have spoken on the suffrage cause in many cities, and in each city I have found a very keen interest in the subject. I have spoken always to large audiences, and so perhaps the majority of my audiences have not been thoroughly with me. At all events, I have found a readiness to listen to the arguments, such as I doubt if I should find in some cities on the other side. In

Doctors Watching  
Itching Scalps Heal

From Chicago Inter-Ocean

Eczema of the head and scalp, and dandruff, will soon cease to afflict mankind, according to Dr. Aloisius M. Churchill, who is in Chicago attending the convention.

"Any person can apply my treatment anywhere just as well as I do in the Franco-American Institute for Scalp Disease," said he Tuesday.

"Get from your druggist 2 ounces of quinine, dissolve it in 1/2 pint hot water, let cool, and rub well into the scalp with the finger tips. That is all there is to it. Two or three applications usually accomplish the desired results."

"In Norway and Sweden, the movement is a strong one. The methods seem to be those of insistence, rather than noise. Sweden will probably grant the vote before long, unless jealousy of Norway operates adversely."

After touching upon Holland, and very briefly upon Turkey, Miss Arnold spoke more at length of her own country. She said that "The Convict" by Miss Elizabeth Robbins, is an admirable picture of the woman movement in England today. "If its enthusiasm tends at times to a certain exaggeration, and bitterness, it is all the more a faithful mirror of the agitation which it depicts."

Referring to the "militant suffragists," Miss Arnold said that "if, as seems probable, woman suffrage be an established thing in the course of the next 10 years, it will be due quite as

much to the old conservative suffragists as to the methods of the more militant suffragists."

"At the outset, though the tactics of the militant suffragists alienated many people, yet they did bring the subject out of the somewhat academic atmosphere under which it reposed for many years."

The speaker made brief reference to the anti-suffrage league that recently came into existence under the aegis of Mrs. Humphrey Ward, a sister of Miss Arnold. She also spoke of the serious tactical mistakes of the militant suffragist and said that they were more than willing to pay for any mistakes they have made. She stated that though she did not speak from experience, the Lowell jail is not a pleasant place to be in.

In conclusion, Miss Arnold said: "I, for one, do not expect from it any immediate effect on the economic situation, in respect to women's wages, though I believe its ultimate effect will be incalculable. I do not anticipate for it any sort of legislative millennium for women. I do not anticipate any marked change in the character of the legislation. Feminine opinion will be found to be greatly divided. I do not believe that women will plunge us into war, nor do I believe that their shrinking from it will make it impossible for England to ever go to war again."

"What, then, do we anticipate? Well, broadly speaking, it is a general raising of the whole status of women, both mental and moral; and a fuller co-operation between the two halves of the community, for the whole community's benefit. Sex antagonism, we believe, will largely disappear, when the sexes are on a basis of economic and political equality."

"Then there are questions constantly coming up in politics that affect women more vitally than men. If protection is ever forced upon the English people without the English housewives having a voice in the matter, it will be a political crime."

"Mr. Roosevelt has said that the home is the most valuable asset of a

household, and that woman is the natural guardian of the home. I agree with him fully. It is because of this, that I maintain, the natural guardians of this valuable asset should have a voice in the councils of the state. But conditions have forced women out of the home, into the arena. Either women must be given economic support, or, if forced into the arena, they must be given political equality."

"The franchise is not based upon mental equality. If it was, many of our free and independent electors would find themselves in an embarrassing position."

"It is not just to argue that women do not want the vote. The point is that women need the vote."

"It is useless to say that the psychic force of women is less than the combined psychic force of men. The point is that here is a psychic force that should be utilized."

"The favorite argument that government is based upon physical force is an anachronism and a fallacy. It is a psychic, not a physical force. The whole tendency of evolution is in a psychic direction."

"There are those who say that universal suffrage is not the most rational basis of government. If universal suffrage will lead people to realize this, and to put suffrage on the basis of brains and qualification, it will accomplish a good end."

Both countries it has become a burning, vital question, of which the next few years must see a settlement.

"The difference between England and America was summed up for me when I arrived in these words: 'In England you women want the vote and you cannot get it. In America, if we wanted it we could get it right away, but we do not.'

That contains two half truths. It is true that we want it in England, and the completion of the truth is that we are going to get it. It is also true that if the women of America wanted the vote they could get it right away and the completion of that truth is that they are going to want it."

Miss Arnold said that it did not seem to her to be the business of a foreigner to mix himself up in domestic policies of a nation not her own, of whose condition she can know but little.

In referring to the movement in Germany she said that it has failed to live the unfortunate line of sex antagonism and of pure individualism. She said that nowhere else have women so persistently relegated to the position of household drudges and domestic slaves as in Germany. It seems impossible at present for German women to regard love as anything but the be-all and end all of feminine existence.

In France, however, she found an active, though limited, movement in favor of woman suffrage, especially in the city of Paris. In Italy the whole woman movement received considerable impetus from the women's congress held in Rome last April. The women of high station, she said, who showed themselves interested in social problems and capable of dealing with them caused considerable surprise. It was a welcome indication of the great and growing vitality of the Italian society.

In Holland, society, particularly in Hague, the influence of a clever woman is so great that naturally she does not feel particularly interested in a vote.

"In Norway and Sweden, the movement is a strong one. The methods seem to be those of insistence, rather than noise. Sweden will probably grant the vote before long, unless jealousy of Norway operates adversely."

After touching upon Holland, and very briefly upon Turkey, Miss Arnold spoke more at length of her own country. She said that "The Convict" by Miss Elizabeth Robbins, is an admirable picture of the woman movement in England today. # PRESIDENT ELIOT

## Has Been Tendered the Ambassadorship to Great Britain

WASHINGTON, Mar. 31.—Pres. Taft, speaking at a dinner tendered to President Charles W. Eliot, of Harvard university, in this city last night, announced by direct inference that Dr. Eliot had been tendered and was considering the appointment of American ambassador to Great Britain. Senator Root of New York, had indicated the selection of Dr. Eliot earlier in the evening, and President Taft made the announcement stronger by declaring he endorsed all that Sen. Root had said.

Mr. Root declared that "before whatever monarch he (Eliot) shall stand, we will know our great republic in all its good qualities is represented by a true American gentleman."

The dinner was given by the Harvard Alumni of Washington.

President Taft, on arriving at the banquet hall, late in the evening, was greeted with rousing cheers of "Hooray to Good Old Yale, Drinker Down" and with nine reverberating "Harvard Hails."

Dr. Eliot had earlier received an ovation.

Sen. Root was among the principal speakers of the evening.

The dinner had a decided dash of college spirit and rollicking songs and parades abounded. The guests included Sen. Lodge, Postmaster General Hitchcock and Secretary of the Navy Meyer.

Sen. Root fairly swept his audience off its feet when, in concluding, he declared:

"Should it so befall Dr. Eliot to be accredited as the American ambassador to one of the great courts of Europe, before whatever monarch he shall stand, there we shall know our great republic in all the good qualities of truth and sincerity of nature, in all its plios ideals and aspirations, is represented by a man, an American gentleman, a scholar, a sage indeed."

President Taft, was last to speak. He devoted himself entirely to a tribute of Dr. Eliot and the ideals of education and the fostering of the university spirit for which he stood. He referred to the Harvard president as the head of the educational movement of the past forty years. In concluding, President Taft caused another great outburst of cheering by declaring that he endorsed all Sen. Root had said in his tribute of Dr. Eliot.

"And especially do I share," said the president, "every word that Sen. Root has said us to what may happen to Dr. Eliot in the future."

Dr. Eliot has described a university as a collection of groups and modestly has ascribed the success of the Harvard university to the work of those groups. Rather do I think the success of the university is due to the man who has been in all of those groups, has welded them together, has carried the influence of one to the other and has brought about harmonious work for the common good."

President Taft spoke at length on

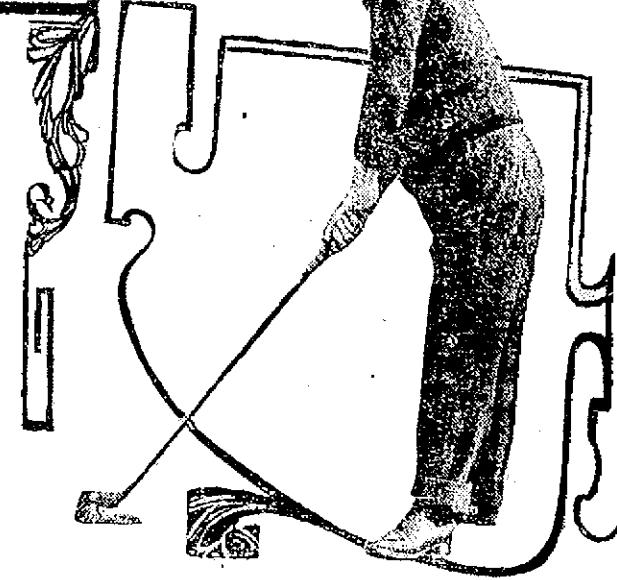

CHARLES W. ELIOT

## PRESIDENT TAFT

### At Play With His "Golf Cabinet"

WASHINGTON, Mar. 31.—Golf is the regular diversion at the White House nowadays, and if every member of the "golf cabinet" does not become an expert it will not be President Taft's fault. The links of the Chevy Chase club are the scene of numerous contests. Vice President Sherman enters into the game with zest, as does Secretary Knox. These photographs were taken recently when the president led the "cabinet" both for a game. The men in the upper picture from left to right are Vice President Sherman, General Clarence Edwards, major dome at the White House; Captain Butt, military aid to the president, and President Taft. The other player is Secretary Knox. Still another distinguished golfer with a "cabinet" still holds the highest score in military title who was present, but is not visible, was "Colonel" Bogey."

It is hardly necessary to say that the "cabinet" is a good cabinet. He says he was a good golfer when he was a boy and imagines he could soon make

## EPWORTH LEAGUE

### Held Anniversary at St. Paul's Church

### As Prelude to Methodist-Episcopal Conference—Address by Rev. Charles M. Melden on "The Christian Revolution"

The Epworth league held its anniversary in St. Paul's church last evening as a prelude to the Methodist conference, which opened this morning. Rev. H. W. Hook of Mattapan presided and the attendance was large. The chorus singing, under the leadership of Rev. J. H. Pardee, was a beautiful feature of the exercises.

The address of the evening was delivered by Rev. Chas. M. Melden of Waltham, whose subject was "The Christian Revolution."

Rev. Mr. Melden spoke in part as follows:

"Christianity is essentially and emphatically revolutionary. It proposes to right everything wrong. It knows no compromise. It lays the axe at the root of the tree of evil. All crimes, all prejudices, all abuses, it proposes to remedy by the eradication of selfishness and sin from human hearts. The program is to establish on earth a kingdom where righteousness and happiness shall reign. It will reform society by regulating the individuals which compose it. It throws out and establishes in their stead righteousness. It gives the individual a clear, new heart. Its method is from within out."

"This is, we believe, propounded philosophically. In the main it is that man's surroundings are as he makes them. Society takes its color and

tone from individuals. It is a composite photograph, conceiving and combining the varied and various traits of its members. The phrase, how to reach the masses, Christianity does not recognize as such, but only as individuals. No external protest will do the work. The individual must be changed through the church. The details of conduct, new loves, new habits, new allegiances must be in his heart. The good must place the word of God in his heart. The good must proceed to change things. They

stirred up the voters and finally routed the liquor power. 'Here is a foeman worthy of our steel,' said the speaker.

thus liquor traffic. The saloon is the deadly, inveterate enemy of the church. The defeat of one means the success of the other. The attitude of the church is one of readying, unswerving hostility to this awful traffic. The saloon is the greatest obstacle to the complete success of the church. Offenses have the ships which carried missionaries to the Orient shared equally in misery also the Orient. The embankments of salvation and damnation went to foreign shores together. The demons of liquor should be sent to the nethermost hell whence he came and where he belongs."

"The establishment, as a result of the great revival of civic leagues, has called general attention to the need of cleaning out the Augean stables of municipal misrule. They have been, and in many cases are, a stench and a reproach. The larger cities are largely run and ruled by a set of pirates. Such

"surroundings undoubtedly do exert great influence, but while circumstances when propitious oftentimes do make great minds greater, it is the paramount thing to break down circumstances, and to create new ones."

"When France by legal enactment closed its churches, and when the Protestant churchmen, it seemed, as if the most horrible crimes were committed forth all over the country, literature, scientific works of art, beautiful specimens of architecture, codes of morals have never saved a people from sinking into oblivion. Ruskin said that

"every time a perfect fresco was painted on some wall in Venice, or some magnanimous picture was hung in York, or Rome, that immediately some hideous down and the work of the baseness was forgotten. Christianity can never change the individual man, although it may contribute to the salvation of his soul.

"Society makes its greatest mistakes.

"It is well known to you all that

the means of protection. You can't negotiate the cities, change the people, create enthusiasm, and then will be the joy of Christ Jesus.

"Christianity has seemed to prevail in the face of persecution. In Rome, again and again and again, with all of the rule and power and

### END OF A RED NOSE

New Flesh-Colored Product That Heals and Hides Skin Imperfections

A peculiar feature of postum, a new skin discovery, is that it is naturally flesh-colored and contains no grease, so that when used on the face for the complexion, or for pimples, red noses, or any other inflammations, blisters, or disfigurements, its presence cannot be detected. It can thus be applied in the daytime, the natural color of the skin being immediately restored and the actual healing and curing process accomplished in a few days. It can be had of any pharmacist who sells pure drugs. Fully & Burroughs and Carter & Son's Burroughs Drug Stores make especially of it. Fifty cents worth will answer either for the troubles mentioned or in curing ordinary cases of eczema. It will not break or punch through.

If you have searched unsuccessfully for corsets that will actually give graceful back and hip lines with perfect comfort, you should be properly fitted with a RENGO BELT.

RENGO BELT is the most wonderful corset ever produced for medium and large figures. It gives a sloping waist line

which flows singly over the hips, and has length below the waist to make the stout figure trim and proportionate.

RENGO BELT corsets also have extra strength due to the double wash-spring steel boning which is twice as durable as the usual single boning. This boning is perfectly covered and made rustless before it is sewed into the corsets, and we guarantee that it will not break or punch through.

If you have searched unsuccessfully for corsets that will actually give graceful back and hip lines with perfect comfort, you should be properly fitted with a RENGO BELT.
